## New C. of C. Officers Elected

Walter Morrow  
Named Presiden  
By Directors

The Washington C. H. Chamber of Commerce today is starting an other year under the guidance of new officers and five new directors without a ripple of the surface.

Walter Morrow, who has been active as head of the Chamber's area development committee, was chosen, for the new president by the board at its meeting Monday night. He succeeded Tom Mark.

Other officers who will serve with him are: A. H. Hutton, first vice president; Dustin Gorton, second vice president; and George (Bud) Naylor, treasurer.

The board also re-employed William Stoughton for the general manager.

Hutton is general manager of The Armo Drainage & Metal Products Co. here; Gorton is the manager of Frozen Foods Lockers, and Naylor is proprietor of the Colonial Paint Store.

Both Morrow and Naylor were elected to three-year terms on the board at the annual meeting last spring. The other three new members chosen at that time are Robert Olinger, Walter Rettig and Carroll Halliday.

The outgoing directors are Joseph Peters, John Breiner, Mark L. M. Hayes and Emerson Marting.

ONE OF MARK'S last official acts was the appointment of a committee to preserve the master plan charts and devise a method by which they can be effectively shown when the occasion for reference arises. On that committee, he named George Blackmore, Mor-

## News Briefs

JERUSALEM (AP)—An Israeli army spokesman today accused Jordanians of machinegunning an Israeli plane spraying crops south of the Sea of Galilee Monday. The spokesman said one wing of the plane was hit but the pilot was not hurt and landed safely. He added that the plane was over Israeli territory.

TOKYO (AP)—Three hundred leftist Japanese students and labor union demonstrators outside the U. S. Embassy today in protest against enlargement of the U. S. Air Force's Tachikawa base near Tokyo. U. S. officials told a delegation admitted to the embassy that the Japanese government is acquiring the land to enlarge the main runway. The base eventually is to be turned over to the Japanese. Owners of the property being taken over contend that the government is paying them a pittance.

KASSEL, Germany (AP)—A World War II bomb discovered in the heart of this West German city was neutralized today after several hundred families had been removed from the area. German authorities said it was a 1,000-pound American bomb. The bomb was unearthed during excavation for a new building.

STOCKHOLM (AP)—Two sailors from a visiting Polish naval squadron jumped ship Monday night and asked for political asylum in Sweden.

SASEBO, Japan (AP)—The U. S. Navy today said 10 Marines at this American naval base are under arrest and may be court-martialed on charges of mistreating prisoners in the brig. The Navy refused to reveal the names of those being held or details of the alleged mistreatment.

## Mrs. Coolidge's Rites To Be Simple, Quiet

NORTHAMPTON, Mass. (AP)—Just as she desired it in her final wish, funeral services Wednesday for Mrs. Calvin Coolidge, widow of the former President, will be quiet and simple.

The former First Lady died early Monday at the age of 78. The funeral will be held in Edwards Congregational Church, where services for the late President were held Jan. 7, 1933.

The body will be cremated Thursday and the ashes will be sent to Plymouth, Vt., for burial Friday beside the grave of her husband.

## Sheriff Spreads Dragnet

## Nothing New Turned Up In Hatchet-Killer Hunt

Sheriff Orland Hays said Tuesday he had come up with "nothing new" as the search for the hatchet-slayer of Mrs. Sarah C. DeWitt, 86, in her quiet country home three miles east of Washington C. H. went into its seventh day.

The dragnet for the killer was still out and the sheriff's staff continued on virtually round-the-clock duty in their attempts to track down the killer of the mild-mannered widow in her CCC highway home last Tuesday.

## 'Mad Dog' Killer Gets Mercy Nod

DANVILLE, Ill. (AP)—Leslie Irvin, Indiana's "mad dog" killer, scheduled to die in the electric chair early today, was granted a last minute stay of execution Monday.

An indefinite delay of Irvin's execution was ordered by Judge Walter C. Lindley of the U. S. Circuit Court of Appeals five hours before his scheduled execution in the Indiana State Prison at Michigan City.

Judge Lindley delayed the execution after conferring for 90 minutes with two of Irvin's lawyers at Lindley's Danville home.

The judge issued the stay until the 7th District Court of Appeals can decide whether it will review the case. The court is in summer recess and will not reconvene until September.

Irvin, 33-year-old pipefitter, was convicted in the holdup-slaying of Wesley Kerr in an Evansville, Ind. filling station on Dec. 23, 1954.

Still pending are indictments charging him with killing Mrs. Mary Holland in an Evansville liquor store, Mrs. Wilhelmina Sailer in her country home near Solitude, Ind., and three persons on a farm near Henderson, Ky.—Gobel Duncan, his son, Raymond, and a daughter-in-law, Mrs. Dorris Ray Duncan.

All the killings were in the winter of 1954-55 and all involved small robberies.

## Beef, Hog Prices Expected To Hold

WASHINGTON (AP)—The Agriculture Department said today this year's improved price level of beef cattle and hogs will continue another year or more if consumer income stays high.

Cattle prices particularly may hold up well and possibly rise further, while pig crop prospects seem to assure sustained hog prices through the summer of 1958.

This rather optimistic outlook was given in the department's monthly report on the livestock and meat situation.

Sustaining the price improvement is the fact that beef cattle numbers are on a periodic decline. Likewise, pig production was reduced this year in the wake of low prices of 1955 and much of 1956.

## Kidnap Charges Faced by Men Being Held Here

Captured Sunday  
Following Robbery  
In Covington, Ky.

Two Cincinnati men being held in Washington C. H. today face possible life imprisonment on federal kidnapping charges, as a result of a \$3 holdup Sunday.

The two were arrested Sunday night near Mt. Sterling after a Covington, Ky., man, James Douthitt, 40, told Washington C. H. police he had been forced to drive them here from Covington Ky.

Douthitt said he made his escape on W. Market St. here after one of them had left the car, allegedly to rob a Washington C. H. hotel.

The men were identified as Ray Alford, 28, and Roy O. Murphy, 24. They are being held here on Covington, Ky., warrants for armed robbery and cutting with intent to kill.

FEDERAL charges were filed before U. S. Commissioner William Seidenfaden in Newport, Ky., about noon Tuesday. Bond recommendation was \$25,000 apiece. Arraignment will be before a U. S. commissioner in Dayton or Columbus, probably Tuesday afternoon or Wednesday.

Covington police had said they would file kidnap charges against Alford and Murphy if the FBI did not.

Alford is on parole from the Ohio Penitentiary where he served five years for manslaughter with a knife. Murphy was released from the Mansfield Reformatory last January after serving two years for auto theft.

They were picked up late Sunday by Mt. Sterling police after they were found hitch-hiking there. Deputy Lawrence Mickie brought them to Washington C. H., where material witnesses in the case said they were "definitely the men" who held up the Covington garage and forced Douthitt to drive them here. Douthitt escaped here.

William McButts, 49, of Covington, who makes his home at the garage, was robbed of \$2 and knifed in the right arm during a tussle over the money.

## Natural Gas Bill Given Panel's OK

WASHINGTON (AP)—The House Commerce Committee today approved the controversial natural gas bill by a tight 15-13 vote.

The bill by Committee Chairman Harris (D-Ark.) is designed to free natural gas producers from utility regulation by the federal government. It now is slated to go to the House Rules Committee, where further opposition is expected.

The Rules Committee decides whether major legislation should be given the right of way for House action.

## Franklin Boy Killed

LEBANON (AP)—A car plunged off a Warren County road into a 20-foot ravine Monday, killing Charles Wright Jr., 17, of Franklin. Three teenage companions were injured.

## Farm Hand Slays Boy, 13, To Get Black Magic Potion

VINELAND, N. J. (AP)—Juan Rivera Aponte, a farm hand and student of black magic was led into Municipal Court today and neckly heard himself charged with the voodoo slaying of a 13-year-old boy.

Municipal Judge Daniel Grosso entered a mandatory plea of innocent for the farm worker and sent him to jail in Bridgeton.

Grosso appointed City Council President Robert J. Halpin as Aponte's attorney and the lawyer asked time to familiarize himself with the case. Grosso set July 22 for a preliminary hearing when he will decide whether to give the case to the grand jury.

Roger lived near the chicken farm of Idek Rosenblum where Aponte worked. The boy had been the object of a wide search for nine months. Aponte himself led police last Tuesday to a shallow grave on the farm where the skeleton of the boy was uncovered.

But Aponte, a Puerto Rican who has worked for Rosenblum for three years, accused his employer of killing Roger and Rosenblum initially was charged with murder.

Police Monday took a tape-recorded statement in Spanish from Aponte and said he signed a transcribed copy.

ROSENBLUM, a 35-year-old Polish displaced person, then was released from jail in Bridgeton. He got a joyous kiss from his wife, Celina, 28. Both had been confined in Nazi Germany's Auschwitz concentration camp during World War II.

## House Reverses Its Stand, Voting Soil Bank Extension

WASHINGTON (AP)—The House, which voted two months ago to kill the major part of the administration's farm soil bank, reversed itself today and voted to extend the program one more year.

Without a fight, House members accepted a Senate-House compromise authorizing \$500 million for payments to farmers next year for the acreage reserve section of the plan for taking a percentage of surplus croplands out of production.

Only Senate approval, which appears certain, remains to insure effectiveness of the program in 1958.

## B&K Given New Pledges By Czechs

PRAGUE, Czechoslovakia (AP)—Nikita Khrushchev and Soviet Premier Bulganin arrived in Czechoslovakia today to receive new pledges of loyalty in the wake of the sweeping Kremlin shakeup. As 15,000 cheered, Czechoslovak Communist party chief Antonin Novotny and lesser officials embraced and kissed the beaming Soviet leaders on their arrival.

Novotny, considered by many one of Joseph Stalin's most faithful disciples, paid special tribute to Khrushchev's program to expand Soviet agriculture, which V. M. Molotov and the other purged Kremlin leaders were accused of opposing.

"We especially hail the results of the creative policies of the Soviet Communist party which has brought progress to your country, advances in industry and agriculture and the great prospects that the Soviet Union will surpass the United States in per capita production of meat, butter and milk," Novotny said.

"The joint talks we will have will have great significance for the security of our Czechoslovak Republic and a tightening and expansion of our economic cooperation with the Soviet Union."

"You visit us at a time when the German militarists and revisionists are again raising their heads on our western frontiers. But the Czechoslovak people know that close friendship and alliance with the Soviet Union is the chief protection for their national freedom and independence."

## Jokesters Handed Stiff Penalties

NEW PHILADELPHIA (AP)—A justice of the peace had the last word in a joke which didn't seem very funny to the victims.

Fred Ruegger, 18, Dundee, and Donald Stiemmer, 28, near Strasburg, drew 90-day jail terms and fines of \$200 and costs each.

Justice Russell Scheer pronounced the sentences Monday after charges had been filed by Jonas Miller of Dundee and Moses L. Yoder of Barrs Mills. Miller and Yoder left their horses and buggies tied to a hitching rack in Sugar Creek. The accused men hid one horse, turned the other loose.

Said the justice to the defendant: "Thirty years ago they might have shot you for that."

The compromise bill would limit signups for acreage reserve contracts to crops normally planted by July 1 next year, and would halt all payments after Sept. 15, 1958.

## 30 Drivers Daily Getting Warnings

COLUMBUS (AP)—Warning notices are going out daily to an average of about 30 motorists in danger of losing their driver licenses under Ohio's new penalty point system, designed to make highways safer.

George C. Braden, state registrar of motor vehicles, said today some 300 motorists have received warnings since the law went into effect June 22.

The new law requires Braden to notify drivers by mail when they receive five or more points. Anyone receiving 12 points faces suspension of his driving rights for a year.

So far no one has amassed 12 points, but Braden said a few motorists soon may be "eligible." All courts are required to notify the state bureau of convictions and bond forfeitures for traffic law violations within 10 days. The bureau assesses the points and keeps the totals.

THE BUREAU must notify clerks of court in a driver's home county when he has received 12 or more points within two years from his first conviction or bond forfeiture.

The clerk then must notify the driver by registered mail within 10 days of the time and place for a hearing to determine whether he is an "habitual violator." The hearing must be held within 30 days of notification to the clerk.

## Soviet Rulers Rip Khrushchev

But Party Boss Scores Victory in Second Vote

PRAGUE, Czechoslovakia (AP)—Reports from Moscow circulating in this Communist capital say Russia's ruling Presidium actually voted to oust Nikita Khrushchev but he turned the tables to dump his top opponents.

The Soviet Communist party chief was said to have had the powerful backing of Defense Minister Georgi Zhukov and First Deputy Premier A. I. Mikoyan in turning back the move.

This account, which originated with Communist sources in the Soviet capital, could not be confirmed officially but close observers of Russian affairs believe it probably is true. It goes like this:

A special session of the Presidium was held June 17. It presumably was called at the request of now ousted Deputy Premier V.M. Molotov and his supporters.

With three unidentified members absent, a majority supported a formal motion to remove Khrushchev and name a new Communist party hierarchy, including all new party secretaries.

KHRUSHCHEV, with only Zhukov and Mikoyan in his corner, challenged the vote. He declared he was elected first secretary by the party Central Committee, was responsible to and could be fired only by the committee.

Zhukov's support of Khrushchev's position carried special weight because the marshal spoke as head of the armed forces.

Faced with that opposition, the Presidium members agreed to call a meeting of the Central Committee. It opened June 22 and continued through June 29.

When the committee session ended, Khrushchev came out with its full backing and Molotov, Georgi Malenkov and Lazar Kaganovich were booted out.

From Warsaw came a report that the chief differences between Khrushchev and his opponents centered on agricultural policy.

The Moscow correspondent of the Polish Communist organ Trzeczna Ludu said the Molotov group was "especially dogmatic and remote from reality" in opposing the decision to abolish compulsory delivery to the state of farm products from privately owned plots.

This is a major plank in Khrushchev's program to increase agricultural production by giving the farmers more incentive.

MEANWHILE, the Soviet press hinted strongly the way is being cleared to expel Molotov, Malenkov and Kaganovich from the Soviet Communist party.

The government newspaper Izvestia listed various degrees of punishment which can be invoked against party members who plot against the party's "monolithic unity."

Izvestia quoted Lenin and decisions of the 10th party Congress of 1921 to show that "plotters against party unity" are liable to punishment up to and including expulsion from the lowest ranks of the Communist party.

Malenkov, former Foreign Minister Molotov and former First Deputy Premier Kaganovich were ousted from the party's ruling body in last week's purge. Malenkov, successor to Stalin as premier, has been singled out for the most severe criticism.

## Judge Orders Sanitary Pig Pen

HOUSTON, Tex. (AP)—Ed Franklin, 60, a hog raiser charged with keeping an unsanitary pig pen, was given 30 days grace to clean up his pen or be fined up to \$200.

"I don't think there is such a thing as a sanitary pig pen," Franklin told Justice of the Peace W. C. Reagan. But he agreed to make the attempt when the judge offered to postpone his verdict.

## Europe Heat Fatal to 288; Italy Boiling

ROME (AP)—The death toll of one of Europe's worst July heat waves rose today to at least 288, including 52 enfeebled inmates in Italy's homes for the aged.

Showers appeared to have broken the nine-day torrid wave across northern Europe. But throughout scorched central Europe and down the sun-blistered Italian peninsula deaths rocketed, and there was no relief in sight.

A week of 100-degree temperatures had taken at least 96 lives in Italy.

West Germany had at least 68 dead, 50 of them from drowning. Temperatures there were slipping back to the middle 80s, however. Water shortages and danger of infection caused some communities to close swimming pools.

Austria, still in the grip of the worst heat wave since 1873, counted 35 dead. The engineer of a local train near Wiener Neustadt collapsed and fell from his cab. The train ran with no one at the controls until a fireman noted what had happened and pulled an emergency brake.

The Netherlands had 29 drownings but temperatures had dropped into the 70s. France had 25 deaths and Belgium 12.

The heat wave appeared ended for Britain with cool winds and some rain. The death toll there was five. Switzerland reported 13 dead and Norway five.

Stockholm was under a drizzle of cool rain with temperatures down to 59 degrees

## Soviet Rulers Rip Khrushchev

But Party Boss Scores Victory in Second Vote

PRAGUE, Czechoslovakia (AP)—Reports from Moscow circulating in this Communist capital say Russia's ruling Presidium actually voted to oust Nikita Khrushchev but he turned the tables to dump his top opponents.

The Soviet Communist party chief was said to have had the powerful backing of Defense Minister Georgi Zhukov and First Deputy Premier A. I. Mikoyan in turning back the move.

This account, which originated with Communist sources in the Soviet capital, could not be confirmed officially but close observers of Russian affairs believe it probably is true. It goes like this:

A special session of the Presidium was held June 17. It presumably was called at the request of now ousted Deputy Premier V.M. Molotov and his supporters.

With three unidentified members absent, a majority supported a formal motion to remove Khrushchev and name a new Communist party hierarchy, including all new party secretaries.

KHRUSHCHEV, with only Zhukov and Mikoyan in his corner, challenged the vote. He declared he was elected first secretary by the party Central Committee, was responsible to and could be fired only by the committee.

Zhukov's support of Khrushchev's position carried special weight because the marshal spoke as head of the armed forces.

Faced with that opposition, the Presidium members agreed to call a meeting of the Central Committee. It opened June 22 and continued through June 29.

When the committee session ended, Khrushchev came out with its full backing and Molotov, Georgi Malenkov and Lazar Kaganovich were booted out.

From Warsaw came a report that the chief differences between Khrushchev and his opponents centered on agricultural policy.

The Moscow correspondent of the Polish Communist organ Trzbnia Ludu said the Molotov group was "essentially dogmatic and remote from reality" in opposing the decision to abolish compulsory delivery to the state of farm products from privately owned plots. This is a major plank in Khrushchev's program to increase agricultural production by giving the farmers more incentive.

MEANWHILE, the Soviet press hinted strongly the way is being cleared to expel Molotov, Malenkov and Kaganovich from the Soviet Communist party.

The government newspaper Izvestia listed various degrees of punishment which can be invoked against party members who plot against the party's "monolithic unity."

Izvestia quoted Lenin and decisions of the 10th party Congress of 1921 to show that "plotters against party unity" are liable to punishment up to and including expulsion from the lowest ranks of the Communist party.

Malenkov, former Foreign Minister Molotov and former First Deputy Premier Kaganovich were ousted from the party's ruling body in last week's purge. Malenkov, successor to Stalin as premier, has been singled out for the most severe criticism.

## Judge Orders Sanitary Pig Pen

HOUSTON, Tex. (AP)—Ed Franklin, 60, a hog raiser charged with keeping an unsanitary pig pen, was given 30 days grace to clean up his pen or be fined up to \$200.

"I don't think there is such a thing as a sanitary pig pen," Franklin told Justice of the Peace W. C. Reagan. But he agreed to make the attempt when the judge offered to postpone his verdict.

## More Slot Machine Gear Is Discovered

LANCASTER (AP)—Another 33 slot machine drums were found in Rush Creek, about 18 miles south of here Monday. More than 30 other slot machines were found there last week. Sheriff A. J. Waldron of Hocking County took the machines to Logan and notified FBI agents in Athens. Authorities said they had no explanation for the discoveries.

# School Hassle Here Entering New Phase Now

'Friends of Court' Get Right to Answer Supreme Court Case

Two entries filed in the Ohio Supreme Court on Saturday have started the second phase of the mandamus action brought by the Miami Trace School Board against its clerk, Mrs. Senath Thompson, to force sale of \$1,652,000 in bonds.

The first entry granted the clerk an additional seven days in which to file an amended answer to the board's petition. Mrs. Thompson had been granted 20 days from June 19 in which to file a pleading, after the court had unanimously ruled the existence of a Citizens Committee was no legal bar to the issuance of the proposed bonds.

Richard P. Rankin, attorney for Mrs. Thompson stated today that, because of illness, he had not been able to prepare an amended answer, but expected that one would be filed by the end of the week. He gave no hint as to what the new answer would contain.

**THE SECOND** entry, signed by Chief Justice Carl V. Weyandt, states: "Upon application and for good cause shown, it is ordered that Charles A. Tabb, Frank S. Jackson, Ralph R. Penn, Mrs. C. Elton Rhoad, Maynard A. Wilson and Will A. Rodgers, by their attorneys, are hereby given leave to be made parties respondent herein and to file answer to petition by July 9, 1957."

This entry, in effect, places the named parties in the same position as the board clerk, and permits them to make objections to the bond issue.

The same persons had filed a brief "amicus curiae" (friends of the court) at the time the case was originally heard upon the issue of the Citizens Committee (this brief was reported by the Record-Herald).

Rankin stated that it was his assumption that the proposed answer would raise the same questions which raised in the earlier brief, pointing out that the Supreme Court, in its opinion, did not discuss, any of the issues raised by the friends of the court. Rankin said he and the attorneys for the Miami Trace Board, Grace Fern Heck and Henry J. Crawford, had consented to the application of the new parties to be made defendants in the suit.

Legal procedure will permit the Miami Trace Board to file replies to the two answers, and then the matter will in all probability be assigned to a commissioner for the taking of testimony within the next few weeks. The Supreme Court does not personally hear testimony, but assigns the matter to commissioners who report in writing.

# New Fuel Found To Power Big Jet Around World

NIAGARA FALLS, N. Y. (AP)—The Olin Mathieson Chemical Co. announced today development of a new high-energy fuel it said could power a B58 jet bomber anywhere in the world and return without refueling.

The company said the new fuel increased the range of jet engines by 40 per cent.

The name of the new chemical fuel is HEF-2. The base of the fuel is borax, a crystalline sodium compound used as a cleansing agent or disinfectant. The United States has huge supplies of borax.

Olin Mathieson plans construction of a \$36 million plant to manufacture HEF-2 at Model City, 10 miles northeast of here.

# Newspapermen's Union Eyes \$200 Week Pay

ST. LOUIS (AP)—The American Newspaper Guild opened its annual convention Monday with its executive board recommending the union's wage goal be raised to \$200 a week.

The union's wage goal for several years has been \$150 a week for experienced newspapermen. Several major locals have moved to within a few dollars of that goal and \$150 minimum salaries will become effective in the major wire services next year.

He is survived by his wife; a brother, James, of Dayton, and his mother. Burial will be in New Mexico.

# Tick on Scalp Brings Paralysis

JACKSON, Miss. (AP)—University of Mississippi Medical Center physicians say a 3-year-old Indian girl has been cured of almost complete paralysis by the removal of a tick from her scalp.

Doctors said Monday a pregnant tick of a certain species secretes a venom that can cause paralysis and could cause death.

The little girl admitted to the hospital July 4, had lost speech and movement. The paralysis began in her feet and spread through her entire body.

Doctors found the tick in her scalp. When the insect was removed the girl was cured.

# Senate Debate May Be Long

Knowland Tells Ike Of 4 to 8-Week Stint

WASHINGTON (AP)—Sen. Knowland (R-Calif.) told President Eisenhower today the current Senate debate on civil rights legislation may continue four to eight weeks and possibly longer.

Knowland, the Senate Republican leader, told newsmen Eisenhower is "fully informed regarding the implications" of such lengthy debate with respect to possibility of congressional action at this session on other administration bills.

Knowland said there certainly will be Senate action on some other legislation after conclusion of the civil rights debate. But he added it also is likely that some administration measures may have to be put on the shelf in Congress until next year.

Knowland and other GOP congressional leaders discussed the civil rights situation in the Senate at their regular Tuesday morning meeting with Eisenhower.

They met at the White House as Senate Republicans girded for around-the-clock sessions which may be ordered if Southerners stiffen their resistance to bringing the House-approved bill officially before the Senate.

**KNOWLAND** has asked his colleagues to be ready for the long sessions to start possibly Wednesday but more likely later in the week.

Senate debate on a motion by Knowland to make the measure the Senate's pending business started Monday. Knowland said he is hopeful the Senate will vote by Saturday on that motion.

The California senator made it clear he looks for more extensive debate if and when the Senate does vote to make the bill its pending business.

Knowland said there was no discussion at today's White House session regarding merits of the bill. Eisenhower repeatedly has called it a decent bill.

Sen. Russell (D-Ga.), commander of the Southern opposition forces, said he is ready to cope with round-the-clock sessions during the last half of the week with Southerners' speeches explaining the bill.

Russell declined to say whether these will continue until Knowland and other supporters decide to try to force the issue with a debate limitation vote. Knowland has indicated he will not attempt that until next week.

The affirmative votes of 64 senators are required to limit debate. Because Knowland might be able to summon that many among Republicans and Northern Democrats who are supporting the bill, Southerners are reluctant to make a test on the preliminary issue.

# State School Board Stalls Area Transfer

The State Board of Education Tuesday morning headed a plea by Supt. W. J. Hilty of the Fayette County schools and refused to transfer a 167-acre tract in the southern part of Washington C. H. from the Miami Trace school district to the Washington C. H. school district.

The board voted 12 to 5 not to transfer the territory at this time. The majority held that a temporary delay would not be harmful because there is neither a school nor students in the area now.

Hilty urged the state board to postpone granting approval of the area, already a part of the city, until the Washington C. H. builds a school in that section.

The 167-acre tract was annexed to the city May 22, with the approval of the Fayette County Board of Commissioners and the Washington C. H. Council.

ON JUNE 21, a hearing was

# Indicted 'Spy' Claims Asylum

Zlatovski Says France To Protect Couple

PARIS (AP)—Russian-born George Zlatovski, indicted in New York on a charge of spying for the Soviet Union, declared today France has granted political asylum to him and his wife Jane. A government spokesman denied it.

The spokesman, a Foreign Ministry official, said the question of political asylum would come up only if and when the United States formally asks extradition of the couple.

The United States has not yet presented such a request, though official moves are underway.

Zlatovski, 47, a Russian-born naturalized American who formerly was a lieutenant in U. S. Army intelligence, declared in an interview at his Left Bank apartment: "The French have given us political asylum. We are their guests. We can say nothing which would embarrass our hosts."

Both he and his 45-year-old wife were indicted by a federal grand jury in New York Monday.

The U. S. government linked the couple to an international spy ring headed by Jack Soble. Soble is currently awaiting sentence in New York as a confessed leader in the spy plot.

**THE ZLATOVSKIS** were pictured in the indictment as operatives for the spy ring as early as 1945, collecting information and turning over data on American installations abroad.

The indictment alleged that Soble paid the couple from money furnished by Soviet sources.

Zlatovski was alleged to have furnished Soble data on Iron Curtain refugees in 1949 and 1950 and to have been assigned to obtain information on "sexual and drinking habits" of Americans working abroad for the government.

Mrs. Zlatovski, it was charged, made five trips to Paris in 1948 with data for the Russians on U. S. Economic Cooperation Administration personnel and American intelligence agents.

It has no connection with the new development corporation.

The board formally commended the Junior Chamber of Commerce, the city recreation board and city and county administrations for the development of the community park, Millikan and Oakland Aves., and the program for its use.

It also commended the Rotary and Lions clubs here for the part they have played in the establishment of the Little League and Babe Ruth League to provide organized baseball for the youth of the community.

Stoughton reported to the board that 5 new members were signed up last month and that renewals of memberships that expire are "coming in steadily." The Chamber had an average membership last year of 317.

# Metal Industry Dullness Fails To Faze Some Economic Optimists Predicting Revival By Steel Very Soon

By SAM DAWSON  
NEW YORK (AP)—Dull days in the metal industries aren't fazing the optimists.

They predict today that steel should see a marked revival before the month is over. The battered copper industry talks of getting supply and demand back on speaking terms before the summer is gone. Only in the zinc and lead industries do the optimists look wistfully to a much later date.

Steel's problems are mostly domestic. Copper's plight is a world wide one with U. S. producers caught in a bind. Lead and zinc mtn feel their current troubles are due to government action, or lack of it.

In all the industries there is growing belief that their customers are about to come to the rescue.

Steel men report that orders are picking up. They are coming from two important groups of users—the auto and the appliance makers—whose indifference in recent weeks saddened the steel industry.

Steel's plight isn't very severe anyway, and its distribution among the various companies is notably irregular. Some are still producing near capacity while others — including some of the biggest — have expected total production of the industry in the summer months to average 80 per cent of capacity or even less.

Customer resistance to the new higher prices hasn't shown up yet, partly perhaps because many of the users haven't been ordering ahead during the days they are closing up shop for mass vacations.

Copper's plight is different. Its worst phases are worldwide. It seems to stem from two things: 1. The price was forced up so high (46 cents a pound) that when possible users of copper turned to substitutes; and 2. Production around the world was speeded up.

The result was a growing supply and a shrinking demand. When supply topped demand the price began skidding. But supply kept piling up. With the price here now around 29 cents, efforts are being made to bring world output into line. Some of the British companies are cutting back in Africa. Some of the U. S. companies have trimmed output a bit, mainly by cutting back to a five day week.

Five flags have flown over New Mexico—the flags of Spain, Mexico, the Confederacy, the United States and an Indian flag. The latter happened during the Pueblo Indian Revolt between 1680 and 1692.

## People . . . Places . . . and Things

### Round about Fayette County

By B. E. KELLEY

The brutal murder of Mrs. Sarah C. DeWitt July 2 at her farm home on the CCC Highway near here, brings to mind the equally extraordinary murder of John W. (Hoggy) Bainter, 35, on the adjoining farm to the north of Mrs. DeWitt's home. The farm at that time was owned by David Dore (now the Ray R. Maddox farm) and is within a mile of the scene of the last crime.

Bainter was shot to death by his brother-in-law, John Denner, during a quarrel. Denner, and his brother Jess, buried him in a field, built a small stable over the grave. The body was not found until three months later. The spot was south of the Maddox barn.

The killing took place Dec. 11, 1915, and the body was unearthed in a shallow grave on March 12, 1916.

After Bainter was buried three feet deep, the Denners drove stakes diagonally over the grave to prevent hogs disturbing the body. They then built the makeshift stable over it where the Denners, engaged in husking corn and "batching" on the Dore farm, kept their horse.

Mrs. Flora Denner, wife of John Denner and, sister of the murdered man, led police Chief D. L. Moore to the scene of the burial and the body, badly decomposed, was unearthed.

Bainter had been shot in the left eye and the bullet came out the back of his head. A second bullet struck him, apparently as he pitched forward, mortally wounded, in the top of the head and was recovered in his neck. His head was removed by Drs. Howard Stitt and F. E. Todhunter named to perform the autopsy, and his skull was introduced at the trial as evidence.

Later the skull was kept in the clerk of court's office for years, finally hauled away with rubbish, only to be found and turned over to authorities when the finders believed another crime had been committed.

I remember having the entire story in type, ready for use in The Daily Herald, but the Denners were not arrested until after the Herald went to press, so we first carried the story in the Ohio State Register a weekly published by the Daily Herald. It is the only time I recall that we permitted the weekly Register to scoop the Daily Herald.

Denner admitted on the witness stand that he killed Bainter, but claimed self defense. He was found guilty of first degree murder and sentenced to the penitentiary for life, but later was released.

Jesse Denner, his brother, pleaded guilty to manslaughter and was sent to Mansfield for an indeterminate term, later being released.

Flora Denner, who had informed officers of the murder was not indicted and was released.

Denner was convicted July 8, 1916, and sentenced by Judge Frank G. Carpenter on July 13, 1916. The jury had recommended mercy.

Thomas S. Maddox was prosecutor, and Lee Rankin and son, Harry Rankin were named to defend the Denners. Prosecutor Maddox was assisted in the prosecution by Charles A. Reid, E. W. Durlinger was clerk of courts, Henry W. Jones was sheriff at the time.

## AUTOMATIC FEEDERS

During the last half century so many labor saving devices have been installed on the average farm as well as in the city homes, that life has been made much easier and much more time has been provided for things other than those which formerly required a great deal of both time and physical exertion.

Among the installations on farms are the automatic hog feeders and watering devices. I know the hogs like this better than having their feed scattered over the ground in the dust or mud, as the case might be. The feeders do much toward promoting healthy swine.

The automatic water dispensers, which provide warm water during the cold weather, also are a big improvement over the old methods.

That reminds me that one hears of very little hog cholera in this community where in bygone years, tens of thousands of dollars worth of hogs died annually from the disease.

## PROBABLY NO SNOW!

There is an old belief that there will always be another snow after the magnolias bloom, and that frequently has been the case.

However, if that always held true, we would have a snowstorm here in July, for at the present time a magnolia tree (magnolia soulangeana) is in bloom on the beautiful park-like lawn at the S. A. Ringer home, Fairfield St., Leesburg.

The magnolia is the kind which has large pink, cup-shaped blossoms, which bloom each spring before the leaves appear.

It bloomed as usual at the proper time last spring, but something happened to change nature and, as a result, it is blooming again in July, although there are leaves in abundance on the tree.

Two blossoms in full color first appeared. A dozen or more large buds are nearing the blooming stage now.

However, this freak of nature in July can hardly foretell a snowstorm to follow—unless it comes next November.

Anyway the tree is attracting quite a lot of attention in Leesburg.

The U. S. Army has just published two volumes reviewing the work of the Army Signal Corps from the time of Pearl Harbor through the first 18 months of World War II.

## Dreyfus Debate Still Smolders

Jose Ferrer Directs  
Movie Based on Fuss

By BOB THOMAS

HOLLYWOOD (AP)—Some controversies, like old soldiers, never die. That's especially true when the controversy is about an old soldier named Alfred Dreyfus.

He was the French officer who was framed and sent to Devil's Island in the late 19th century. His case was taken up as a crusade by French intellectuals who accused high government and army officials of anti-Semitism, Dreyfus being a Jew. After a long battle, he was vindicated.

You wouldn't think that such a long-ago affair would still be alive, but Jose Ferrer claims that it is. He should know. He has just finished directing and starring in "I Accuse," the Dreyfus story.

"Apparently, Dreyfus is still a big issue in France," commented Ferrer. "Nobody took any direct action against us, but you could feel an undercurrent of resentment."

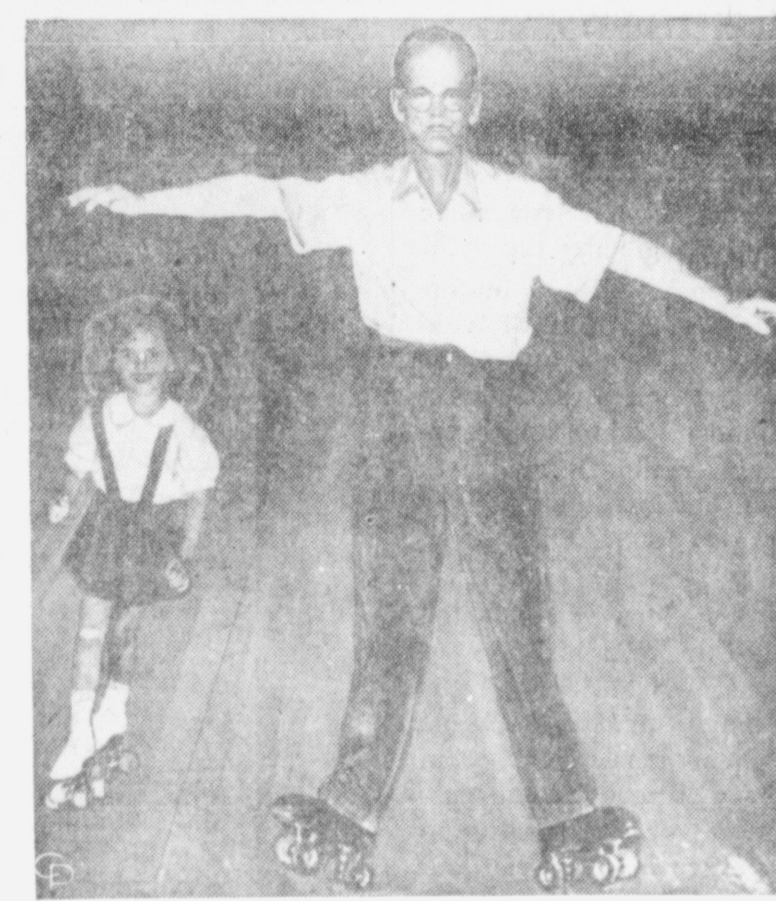

Producer Sam Zimbalist got the cold shoulder on requests for filming locations in France, Ferrer reported. The major part of the film was made in England, but certain locations were desired in Paris.

"We waited and waited for permission to come through," the actor said. "Finally, we couldn't wait any longer. We had to shoot the exteriors in Brussels. The shots were okay, but not like the real thing. Paris is Paris, and no other city is like it."

# Metal Industry Dullness Fails To Faze Some

Economic Optimists Predicting Revival By Steel Very Soon

By SAM DAWSON  
NEW YORK (AP)—Dull days in the metal industries aren't fazing the optimists.

They predict today that steel should see a marked revival before the month is over. The battered copper industry talks of getting supply and demand back on speaking terms before the summer is gone. Only in the zinc and lead industries do the optimists look wistfully to a much later date.

Steel's problems are mostly domestic. Copper's plight is a world wide one with U. S. producers caught in a bind. Lead and zinc men feel their current troubles are due to government action, or lack of it.

In all the industries there is growing belief that their customers are about to come to the rescue.

Steel men report that orders are picking up. They are coming from two important groups of users—the auto and the appliance makers—whose indifference in recent weeks saddened the steel industry.

Steel's plight isn't very severe anyway, and its distribution among the various companies is notably irregular. Some are still producing near capacity while others—including some of the biggest—have expected total production of the industry in the summer months to average 80 per cent of capacity or even less.

Customer resistance to the new higher prices hasn't shown up yet, partly perhaps because many of the users haven't been ordering ahead during the days they are closing up shop for mass vacations.

Copper's plight is different. Its worst phases are worldwide. It seems to stem from two things: 1. The price was forced up so high (46 cents a pound) that when possible users of copper turned to substitutes; and 2. Production around the world was speeded up.

The result was a growing supply and a shrinking demand. When supply topped demand the price began skidding. But supply kept piling up. With the price here now around 29 cents, efforts are being made to bring world output into line. Some of the British companies are cutting back in Africa. Some of the U. S. companies have trimmed output a bit, mainly by cutting back to a five day week.

Five flags have flown over New Mexico—the flags of Spain, Mexico, the Confederacy, the United States and an Indian flag. The latter happened during the Pueblo Indian Revolt between 1680 and 1692.

## Round about Fayette County

By B. E. KELLEY  
The brutal murder of Mrs. Sarah C. DeWitt July 2 at her farm home on the CCC Highway near here, brings to mind the equally extraordinary murder of John W. (Hoggy) Bainter, 35, on the adjoining farm to the north of Mrs. DeWitt's home. The farm at that time was owned by David Dore (now the Ray R. Maddox farm) and is within a mile of the scene of the last crime.

Bainter was shot to death by his brother-in-law, John Denner, during a quarrel. Denner, and his brother Jess, buried him in a field, built a small stable over the grave. The body was not found until three months later. The spot was south of the Maddox barn.

The killing took place Dec. 11, 1915, and the body was unearthed in a shallow grave on March 12, 1916.

After Bainter was buried three feet deep, the Denners drove stakes diagonally over the grave to prevent hogs disturbing the body. They then built the makeshift stable over it where the Denners, engaged in husking corn and "bathing" on the Dore farm, kept their horse.

Mrs. Flora Denner, wife of John Denner and, sister of the murdered man, led police Chief D. L. Moore to the scene of the burial and the body, badly decomposed, was unearthed.

Bainter had been shot in the left eye and the bullet came out the back of his head. A second bullet struck him, apparently as he pitched forward, mortally wounded, in the top of the head and was recovered in his neck. His head was removed by Drs. Howard Stitt and F. E. Todhunter named to perform the autopsy, and his skull was introduced at the trial as evidence.

Later the skull was kept in the clerk of court's office for years, finally hauled away with rubbish, only to be found and turned over to authorities when the finders believed another crime had been committed.

I remember having the entire story in type, ready for use in The Daily Herald, but the Denners were not arrested until after the Herald went to press, so we first carried the story in the Ohio State Register a weekly published by the Daily Herald. It is the only time I recall that we permitted the weekly Register to scoop the Daily Herald.

Denner admitted on the witness stand that he killed Bainter, but claimed self defense. He was found guilty of first degree murder and sentenced to the penitentiary for life, but later was released.

Jesse Denner, his brother, pleaded guilty to manslaughter and was sent to Mansfield for an indeterminate term, later being released.

Flora Denner, who had informed officers of the murder, was not indicted and was released.

Denner was convicted July 8, 1916, and sentenced by Judge Frank G. Carpenter on July 13, 1916. The jury had recommended mercy.

Thomas S. Maddox was prosecutor, and Lee Rankin and son, Harry Rankin were named to defend the Denners. Prosecutor Maddox was assisted in the prosecution by Charles A. Reid. E. W. Durlinger was clerk of courts. Henry W. Jones was sheriff at the time.

### AUTOMATIC FEEDERS

During the last half century so many labor saving devices have been installed on the average farm as well as in the city homes, that life has been made much easier and much more time has been provided for things other than those which formerly required a great deal of both time and physical exertion.

Among the installations on farms are the automatic hog feeders and watering devices. I know the hogs like this better than having their feed scattered over the ground in the dust or mud, as the case might be. The feeders do much toward promoting healthy swine.

The automatic water dispensers, which provide warm water during the cold weather, also are a big improvement over the old methods.

That reminds me that one hears of very little hog cholera in this community where in bygone years, tens of thousands of dollars worth of hogs died annually from the disease.

### PROBABLY NO SNOW!

There is an old belief that there will always be another snow after the magnolias bloom, and that frequently has been the case.

However, if that always held true, we would have a snowstorm here in July, for at the present time a magnolia tree (magnolia soulangeana) is in bloom on the beautiful park-like lawn at the S. A. Ring home, Fairfield St., Leesburg.

The magnolia is the kind which has large pink, cup-shaped blossoms, which bloom each spring before the leaves appear.

It bloomed as usual at the proper time last spring, but something happened to change nature and, as a result, it is blooming again in July, although there are leaves in abundance on the tree.

Two blossoms in full color first appeared. A dozen or more large buds are nearing the blooming stage now.

However, this freak of nature in July can hardly foretell a snowstorm to follow—unless it comes next November.

Anyway the tree is attracting quite a lot of attention in Leesburg.

The U. S. Army has just published two volumes reviewing the work of the Army Signal Corps from the time of Pearl Harbor through the first 18 months of World War II.

## Dreyfus Debate Still Smolders

Jose Ferrer Directs Movie Based on Fuss

By BOB THOMAS

HOLLYWOOD (AP)—Some controversies, like old soldiers, never die. That's especially true when the controversy is about an old soldier named Alfred Dreyfus.

He was the French officer who was framed and sent to Devil's Island in the late 19th century. His case was taken up as a crusade by French intellectuals who accused high government and army officials of anti-Semitism, Dreyfus being a Jew. After a long battle, he was vindicated.

You wouldn't think that such a long-ago affair would still be alive, but Jose Ferrer claims that it is. He should know. He has just finished directing and starring in "I Accuse," the Dreyfus story.

"Apparently, Dreyfus is still a big issue in France," commented Ferrer. "Nobody took any direct action against us, but you could feel an undercurrent of resentment."

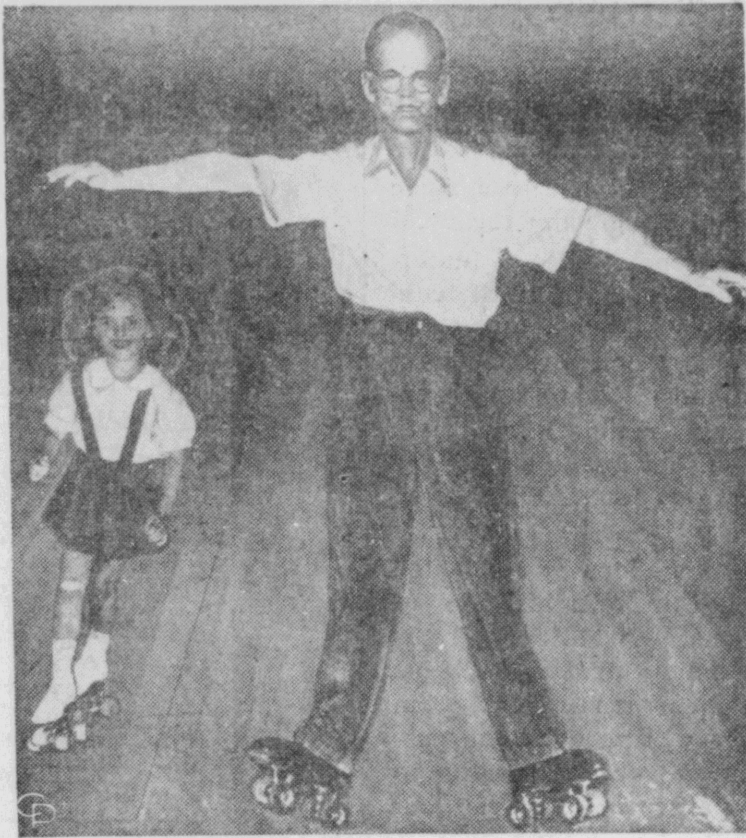

Producer Sam Zimbalist got the cold shoulder on requests for filming locations in France, Ferrer reported. The major part of the film was made in England, but certain locations were desired in Paris.

## Are Present Day Farm Surpluses Temporary?

In view of the many discussions about agriculture, a subject in which our own county of Fayette is deeply interested, the question often heard talked over, is what is the future of this important nation-wide industry?

There are those who say the world, with its fast increasing population, will be found wanting in sufficient food supplies, in years to come, although not for the present.

Early in the 19th century the British economist, Malthus, published his famous "Essay on Population." It developed what became known as the Malthusian theory took the view that world population would eventually outgrow the world's food supply, resulting in famine and starvation. In the light of scientific knowledge and farming practices of that era, many argued that the theory seemed as sound as it was threatening and somber.

However, since then, it is clearly pointed out that there have been revolutionary changes in matters of agriculture.

Innovations in farming such as better seeds and fertilizers along with modern mechanization has given man the productive power that it took many men to provide in other days, have created a

situation which would have seemed unbelievable to Malthus. Technology is minimizing the threat of eventual starvation which has concerned many ever since Malthus expounded his gloomy theory.

There is another point of top importance. The farmer's new tools and techniques have helped to bring about the agricultural surplus problem, and it is a vexing problem indeed. This may be extremely discouraging to those who seek to control production, but in the long-range view it is encouraging for humanity generally.

Population in this country and the world is soaring. Our own acreage of farm land is virtually fixed. So there is every reason to believe that the surplus is a temporary phenomena, and that in years to come we will need all the productive power our farmers can summon to satisfy the appetites of ourselves and of others.

Therefore future of modern, well managed agriculture and of the efficient family-size farm, which intelligent practice and mechanization has done much to strengthen, is bright according to most well posted observers.

## Living with Gorilla Can Be Fun

BERLIN (AP) — "Living alone with a gorilla can be fun."

So says Rosemarie Hohler, a petite 24-year-old German nurse with gentle brown eyes.

She knows. She has just spent three months in a hospital isolation room caring day and night for Klorke, an ailing baby gorilla.

Klorke, aged 20 months and worth \$5,000, is a hairy 28-pound bundle of mischief with a toothy flashing grin. The Berlin zoo flew him in from the French Cameroons to replace Pongo, a giant gorilla who was bayoneted to death in World War II by Russian soldiers.

When Rosemarie first entered Klorke's life last March, he was a sad-eyed homesick little ape stricken with infectious paratyphoid, a fever fatal to many gorillas.

Rosemarie, a nurse at West Berlin's City Hospital, volunteered to go into quarantine with Klorke to save his life. Zoo experts said Klorke would have better chance to pull through if

he were cared for by a woman he could come to love as his foster mother.

Rosemarie set up housekeeping for herself and the gorilla in a small barely furnished sealed-off room at city hospital.

"At first I was afraid of the little black devil because the first time I took him into my arms he bit me," said Rosemarie. "But soon I came to love him better than I would a child."

And how did Klorke feel? "The first night he was afraid and sat up in his cage. He would begin to cry everytime I turned off the light."

"But then as we were together, he began to love and respect me. He knew that I was helping him. If I tried to go out, he would follow me whimpering. That was proof that he loved me."

Klorke got steadily better on a diet of baby milk formula, soft boiled eggs and fruit.

By day, Rosemarie and the gorilla would romp in the room. "He was lots of fun," she says. Klorke would duck under the

by Seymour Topping  
(For Hal Boyle)

bed, race around the room and then leap into Rosemarie's arms burying his flat nose in her hair and gently nipping her ears.

The big problem for Rosemarie, like for any parent, came at night when Klorke would stubbornly refuse to go to bed.

The nurse learned it was best to put him in a big bag and dump him directly into his wooden cage. The cage stood near Rosemarie's steel hospital cot.

Klorke feels well now, although he will never be entirely free of paratyphoid. He has been taken to the zoo hospital where visitors can view him in a big glass cage.

Rosemarie has gone along to take care of him. She works days at the zoo. When she leaves Klorke cries for her like a child.

"I shall stay with Klorke for another one or two years until he is almost grownup," said Rosemarie. "Then he won't need a mother."

In about five years Klorke will be full grown, about 6 foot tall and weighing around 550 pounds.

## Dangers in the Mallory Decision

Granted that a rapist is entitled to due process of the law, are not citizens entitled to juridical protection against rapists?

Granted also that there may be a wide difference of opinion as to what should be done about Communists—should they be permitted to do their party work freely on the basis of First Amendment or should they be prosecuted as spies and unregistered enemy agents—can there also be a difference of opinion about rapists?

It would seem to me that the Supreme Court, in its present mood, has done more harm by the Mallory decision which freed a rapist on such technicalities as to make it practically impossible for police to function at all. Is the Mallory decision to be applied to the mugger, the heroin pusher and the labor racketeer?

For what the Mallory decision says is, in effect, that the police may question a suspect as long as he is not under arrest, but the moment the culprit is arrested, it is "unreasonable delay" in arraigning him if the police use any time to make a case against him.

I wonder whether any of the Supreme Court brethren have any knowledge of police work. In the larger cities, the nature of felonies has changed radically from what it was half a century ago. Back in those days, burglary was one of the most serious felonies; crimes were usually against property.

Today, the prevalent crimes may be divided into three categories:

1. Psychological crimes, committed by teenagers, associated with sex, often involving rape and murder.
2. Crimes related to narcotics, often involving children of elementary and high school age.
3. Rackets, involving not only gangsters but reputable businessmen, lawyers, bankers, public officials, which arise from the prospects of earning untaxed or untaxable money.

The psychological prisoner is usually a leecher or a very old man who has gone nuts over sex and to whom rape and murder are outlets for an emotional buildup.

It is found in the records that rape is a repetitive crime. The rapist will rape again if he gets a chance. Most often, he can only be caught by confession, because when a fellow commits a rape, he does not invite witnesses to watch him. It is done on a lonely road, in a cellar, or on a roof top.

If a congressional committee were to hold a hearing on this subject, the police of every city can produce records of denial for days, until confusion comes, often with bragadocio. Without confession, the police usually do not have the slightest lead, except that a girl-child has disappeared as though in thin air.

Now the Supreme Court has told the police of this country that they must not question the suspect after he has been arrested, only before he has been arrested. In that case, the police had better drop the matter altogether.

It has been experience that the psycho does not talk until the police get him downtown, as it is often called, put him through the "line-up," let him "tell it to the judge." No questioning at headquarters and no confessions.

## Allergy Or Just Fantasy?

By HERMAN N. BUNDESEN, M.D.

YOUR mind can do some strange things. I have often advised those of you with asthma and certain other allergies to avoid domestic quarrels and other emotional disturbances whenever possible.

We know for a fact that this tension often triggers an allergic attack.

### Produces Symptoms

But we also have reason to suspect that anxiety and tension alone will produce allergic symptoms in a person who apparently has no real allergy. Numerous experiments seem to bear this out.

In certain persons, the problems and challenges met in everyday life are enough to initiate body disturbances identical to those produced by allergens. This means that actual asthmatic attacks may be brought about simply by troublesome situations, even though the person is not allergic to the usual foreign proteins which bother asthmatics.

### Domestic Difficulty

Perhaps it is the illness of a child, loss of a job or some grave domestic difficulty. Quite often a disturbance, strong enough to produce an allergic reaction, is unconsciously associated with feelings of guilt, resentment or remorse.

Not only do such situations

## The Nation Today

WASHINGTON (AP) — The civil rights bill is loaded—in the sense that it goes far beyond just protecting the voting rights of Negroes—but it hardly comes under the head of "cunning."

Sen. Russell, Georgia Democrat and captain of the Senate Southerners now trying to prevent Senate consideration of the bill, called it the "most cunningly devised and contrived piece of legislation I have ever seen."

This, knowingly or not, was a slap at the Justice Department. Atty. Gen. Brownell, at the Senate Judiciary Committee's open hearings last February, said the bill was put together by his Justice Department's lawyers.

Brownell frankly said this bill—backed by the Eisenhower administration—would go beyond protection of voting rights. For example, he said, he could step in under it to back up the Supreme Court's ban on public school segregation.

He didn't go into the many kinds of civil rights violations covered by this bill. He wasn't asked. Here are some other possibilities: segregation on buses, interference with witnesses or jurors where civil rights are concerned. There are plenty.

This is how he'd act: He'd ask a federal judge to order a stop to the violations. Disobedience would bring trial for contempt by the judge himself—not a jury trial—and jail if convicted.

In his indignation against this bill, Russell suggested that it be

submitted to national vote. Only a handful of the people most affected by it—Southern Negroes—are eligible to vote.

What particularly irritated Russell was that the bill doesn't spell out precisely what it would do but amends other laws which are merely referred to in the bill by number.

This is not, however, unusual in legislation. In such cases it is assumed that the senators, before they vote, will take the trouble to look up the amended laws to find out what they're voting on.

The bill falls into four sections but only the last two are under fire so far. No. 1 would create a six-man commission to study civil rights problems; No. 2 would create a new civil rights division in the Justice Department.

The fight has been over Nos. 3 and 4.

No. 3 would amend on old 19th century law—covering a very broad field of civil rights violations—under which a person whose rights were violated could sue for damages or ask a judge for an injunction to stop the violation.

Under the amending bill the attorney general could step in, instead of leaving it up to the injured individual to act, and ask the court for an injunction.

No. 4 would authorize the attorney general to step in if—specifically—some individual's voting rights were violated.

Under Nos. 3 and 4 he'd ask for

a court injunction. Anyone disobeying the court order could be tried for contempt by the judge himself—without jury trial—and be sent to jail.

The theory is that this is the fastest way to get action against civil rights violations: to prevent their happening or stop them while they are happening. By the same reasoning a jury trial is slow and would come after a violation.

There is nothing new in trial for contempt of court by a judge himself, without a jury. Brownell cited at least 28 laws under which that can be done in other fields.

Southerners insist there should be a jury trial. But, although during the weeks of the filibuster they will offer amendment upon amendment to soften this bill, their main purpose all the while, Russell has said, will be to kill the bill.

Russell argues on another point too: not mentioned in the bill is an old law giving the President authority to call out troops to back up a court order against violations covered by that old 19th century law which this bill would amend.

Are Present Day Farm Surpluses Temporary?

In view of the many discussions about agriculture, a subject in which our own county of Fayette is deeply interested, the question often heard talked over, is what is the future of this important nation-wide industry?

There are those who say the world, with its fast increasing population, will be found wanting in sufficient food supplies, in years to come, although not for the present.

Early in the 19th century the British economist, Malthus, published his famous "Essay on Population." It developed what became known as the Malthusian theory took the view that world population would eventually outgrow the world's food supply, resulting in famine and starvation. In the light of scientific knowledge and farming practices of that era, many argued that the theory seemed as sound as it was threatening and somber.

However, since then, it is clearly pointed out that there have been revolutionary changes in matters of agriculture.

Innovations in farming such as better seeds and fertilizers along with modern mechanization has given man the productive power that it took many men to provide in other days, have created a

situation which would have seemed unbelievable to Malthus. Technology is minimizing the threat of eventual starvation which has concerned many ever since Malthus expounded his gloomy theory.

There is another point of top importance. The farmer's new tools and techniques have helped to bring about the agricultural surplus problem, and it is a vexing problem indeed. This may be extremely discouraging to those who seek to control production, but in the long-range view it is encouraging for humanity generally.

Population in this country and the world is soaring. Our own acreage of farm land is virtually fixed. So there is every reason to believe that the surplus is a temporary phenomena, and that in years to come we will need all the productive power our farmers can summon to satisfy the appetites of ourselves and of others.

Therefore future of modern, well managed agriculture and of the efficient family-size farm, which intelligent practice and mechanization has done much to strengthen, is bright according to most well posted observers.

Living with Gorilla Can Be Fun

BERLIN (AP) — "Living alone with a gorilla can be fun."

So says Rosemarie Hohler, a petite 24-year-old German nurse with gentle brown eyes.

She knows. She has just spent three months in a hospital isolation room caring day and night for Knorke, an ailing baby gorilla.

Knorke, aged 20 months and worth \$5,000, is a hairy 28-pound bundle of mischief with a toothy flashing grin. The Berlin zoo flew him in from the French Cameroons to replace Pongo, a giant gorilla who was bayoneted to death in World War II by Russian soldiers.

When Rosemarie first entered Knorke's life last March, he was a sad-eyed homesick little ape stricken with infectious paratyphoid, a fever fatal to many gorillas.

Rosemarie, a nurse at West Berlin's City Hospital, volunteered to go into quarantine with Knorke to save his life. Zoo experts said Knorke would have better chance to pull through if

he were cared for by a woman he could come to love as his foster mother.

Rosemarie set up housekeeping for herself and the gorilla in a small barely furnished sealed-off room at city hospital.

"At first I was afraid of the little black devil because the first time I took him into my arms he bit me," said Rosemarie. "But soon I came to love him better than I would a child."

And how did Knorke feel?

"The first night he was afraid and sat up in his cage. He would begin to cry everytime I turned off the light."

"But then as we were together, he began to love and respect me. He knew that I was helping him. If I tried to go out, he would follow me whimpering. That was proof that he loved me."

Knorke got steadily better on a diet of baby milk formula, soft boiled eggs and fruit.

By day, Rosemarie and the gorilla would romp in the room.

"He was lots of fun," she says. Knorke would duck under the

Dangers in the Mallory Decision

Granted that a rapist is entitled to due process of the law, are not citizens entitled to juridical protection against rapists?

Granted also that there may be a wide difference of opinion as to what should be done about Communists—should they be permitted to do their party work freely on the basis of First Amendment or should they be prosecuted as spies and unregistered enemy agents—can there also be a difference of opinion about rapists?

It would seem to me that the Supreme Court, in its present mood, has done more harm by the Mallory decision which freed a rapist on such technicalities as to make it practically impossible for police to function at all. Is the Mallory decision to be applied to the mugger, the heroin pusher and the labor racketeer?

For what the Mallory decision says is, in effect, that the police may question a suspect as long as he is not under arrest, but the moment the culprit is arrested, it is "unreasonable delay" in arraigning him if the police use any time to make a case against him.

I wonder whether any of the Supreme Court brethren have any knowledge of police work. In the larger cities, the nature of felonies has changed radically from what it was half a century ago. Back in those days, burglary was one of the most serious felonies; crimes were usually against property.

Today, the prevalent crimes may be divided into three categories:

1. Psychological crimes, committed by teenagers, associated with sex, often involving rape and murder;
  2. Crimes related to narcotics, often involving children of elementary and high school age;
  3. Rackets, involving not only gangsters but reputable businessmen, lawyers, bankers, public officials, which arise from the prospects of earning untaxed or untaxable money.
- The psychological prisoner is usually a teenager or a very old man who has gone nuts over sex and to whom rape and murder are outlets for an emotional buildup.

It is found in the records that rape is a repetitive crime. The rapist will rape again if he gets a chance. Most often, he can only be caught by confession, because when a fellow commits a rape, he does not invite witnesses to watch him. It is done on a lonely road; in a cellar; or on a roof top.

If a congressional committee were to hold a hearing on this subject, the police of every city can produce records of denial for days, until confusion comes, often with braggadocio. Without confession, the police usually do not have the slightest lead, except that a girl-child has disappeared as though in thin air.

Now the Supreme Court has told the police of this country that they must not question the suspect after he has been arrested, only before he has been arrested. In that case, the police had better drop the matter altogether.

The Nation Today

WASHINGTON (AP) — The civil rights bill is loaded—in the sense that it goes far beyond just protecting the voting rights of Negroes—but it hardly comes under the head of "cunning."

Sen. Russell, Georgia Democrat and captain of the Senate Southerners now trying to prevent Senate consideration of the bill, called it the "most cunningly devised and contrived piece of legislation I have ever seen."

## Dr. Mrs., Nauss Enjoy Trip Around World

Dr. and Mrs. Ray J. Nauss have just completed an exciting trip around the world. Leaving New Orleans March 18 aboard the Lykes Bros. S. S. Harry Culbreath, a 10,000 ton freighter, their first ports of call were Colon, Panama, San Pedro, Calif., and across the North Pacific Ocean to Yokohama, Japan, where they docked for two days on April 18.

On this first leg of the trip the cargo consisted of canned goods, fertilizer, carbon black, mussel shells, paint, bales of aluminum scrap, pig iron, baled cotton, tires and tubes, petroleum products, soy bean meal, oatmeal tallow and household goods.

During next month the freighter docked at Kobe and Osaka, Japan, Keelung, Formosa, Man- ila, Soerabaja, Semarang and Cheribon, Java. While docked at latter port the Nausses said it was unsafe to go ashore due to the strong hatred for Americans by the communists there.

After spending a few days in Djokjakarta, Java, and Singapore, Malaya, they obtained pas- sage aboard a Norwegian freighter, M. S. Leoville. After visiting the Island of Penang and other ports of call they sailed across the Bay of Bengal to Colombo, Ceylon. Due to Monsoons which had flooded the canals the freighter was unable to complete loading her cargo of tea and coffee.

June 5 saw the freighter crossing the Indian Ocean, arriving at Suez, Egypt, June 15. As it was too late to go through the canal with the single convoy which passed from East to West daily she went through the next day with a convoy of 35 ships. It took 15 hours and the Nausses said the cooler Mediterranean weather was a welcome change after equatorial tem- peratures of 95 with humidity 97.

While sailing across the Mediter- ranean to Gibraltar sorrow came to the passengers and crew of the freighter when one of the women passengers dropped dead. She and her husband had been on the trip all the way from New York, other nine passengers having em- barked at other ports. After pass- ing through the Strait of Gi- braltar, burial services were held 10 miles off shore in the Atlantic.

The Nausses docked July 2 at New York and traveled to Wash- ington C. H. via train.

## Class Enjoys Picnic Sunday

Members of the Golden Rule Class of Bloomingburg Methodist church enjoyed a picnic Sunday evening in the City Park. Mr. and Mrs. Robert Huff, Mr. and Mrs. Loren Noble and Mr. and Mrs. Arthur Thompson were hosts.

After a short business session the group enjoyed the firework display.

Those present were Mr. and Mrs. Rex Bloomer, and family, Mr. and Mrs. Carl Scott and family, Mr. and Mrs. Dale Thornton and fam- ily, Mr. and Mrs. Frank Slager, Mr. and Mrs. Robert Hughes, Mr. and Mrs. Donald Dennen, Mr. and Mrs. Charles Gibeau and family, Mr. and Mrs. Wilbur Rapp and family, Mr. and Mrs. Roy Coe and family, Mr. and Mrs. Charles Cunningham and family, Mr. and Mrs. Eli Craig and Mr. Wayne Cowdery.

## Mrs. Bryant Entertains Club

Mrs. Dale Eakins and Mrs. Lyle Benjamin were guests of the Wash- ington Homemakers Home Dem- onstration Club when the group met at the home of Mrs. Howard Bryant Monday evening.

Mrs. Carey Daugherty, president, conducted the short business ses- sion and secretary-treasurer, Mrs. Lou Smith, gave her report. Roll call was answered with members giving their pet peeve.

It was announced that the next get-together will be a family pic- nic at Washington Park Aug. 13. The September meeting will be held at the home of Mrs. Smith and the project will be making sties.

The remainder of the evening was spent re-caning chairs with Mrs. T. H. Hoffman and Mrs. Ken- neth Horney as leaders.

Members present were Mrs. Daugherty, Mrs. Smith, Mrs. Ken- neth Watson, Mrs. Donald Palmer, Mrs. Woodruff, Mrs. Hoffman and Mrs. Horney.

## White Oak Grove MYF Group Meets

"You Can Do With Your Life What You Wish" was the devo- tional theme used by Robert Bar- ker when the White Oak Grove MYF met in the church Sunday night. Ruth Barton read from the Scriptures and group singing was accompanied by Janet Knedler at the piano.

During the business session con- ducted by the president, Mike Wagner, a discussion was held re- garding a group trip. Rickie Small- ey gave a report on the week he spent at Sabina Camp and plans were made for other MYF mem- bers to attend.

A recreation period followed in the basement.

## Vacuum Cleaner Ruined by Bees

WINSTON-SALEM, N. C. (AP)—Because a swarm of honey bees settled in the weatherboarding of her home, Mrs. B. M. Newman was back to sweeping her floors with a broom today and her hus- band was in the doghouse.

In an attempt to get the bees out, Newman stuck the nozzle of his wife's vacuum cleaner in the hole where the bees entered.

Within 10 minutes, the dead bees had gummed up the motor, ruining the machine. Newman will have to buy a new vacuum to get out of the doghouse.

## Barefoot Prophet To Visit Arkansas

LITTLE ROCK, Ark. (AP)—A self-styled barefoot prophet from South Africa notified the Little Rock City Council Monday that he will show up at city hall the night of Nov. 4.

Daniel DuToit, in a letter mailed from Dover, England, said he has walked 24,000 miles in sackcloth and bare feet to preach salvation.

He added that in the past five years he has lived without "a single penny money." The city clerk's office paid 6 cents due on the letter.

## State Educator Quits Position

COLUMBUS (AP)—Joseph D. Stecher of Toledo, whose recent ap- pointment as executive director of the American Bar Assn. makes it necessary for him to move to Chi- cago, has resigned from the State Board of Education.

Stecher's resignation was an- nounced at Monday night's month- ly board meeting.

### Houseware Sales Rise Predicted by Ohioan

ATLANTIC CITY, N. J. (AP)—The president of the National House- ware Manufacturers Assn. pre- dicts an upsurge this year in sales of home appliances and other household goods.

Clarence O. Hamilton of Columbus, Ohio, told delegates to the NHMA's 27th an- nual conference here Monday that second half business in the field is expected to be "better than the first six months" of this year. He mentioned no figures.

## Courts

### FORECLOSURE SUIT FILED

M. C. Ortman Monday filed suit in Common Pleas Court against Wayne C. Hoop, 1134 Gregg St., and Maxine Hoop, Columbus, for foreclosure of a mortgage on lot 9, Gregg St. Improvement Co. ad- vion, given as security for a note, which he claims is overdue. Ort- man claims \$1,390, plus interest at 6 per cent from Feb. 6, 1957, is due him. The mortgage was filed, the petition states, Aug. 7, 1954. Ortman's petition also notes 15 payments amounting to \$469.50 have been made between Sept. 1, 1954 and Sept. 14, 1955.

### DIVORCE SUIT FILED

Marie Looney, 718 Eastern Ave., Monday filed suit in Common Pleas Court against William M. Looney for divorce, custody of three minor children, support for the children and alimony. She also requested a restraining order to prevent Looney inflicting bodily harm to herself and children and attempting to sell, encumber or destroy property. They were mar- ried Aug. 11, 1947.

## Man, 21, Marries Woman of 65

NASHVILLE, Tenn. (AP)—"It was just love at first sight," explained Thomas Henderson, 21, after his marriage Monday to the former Mrs. Florence Norris, 65.

"I remember when I first saw her," the grinning bridegroom said at a wedding dinner in a friend's house. "It was about two or three weeks ago when I rode my bicycle by this house."

"Last week I asked her to marry me," he added.

The couple paid for their \$5.50 marriage license with money saved from shelling beans at the city market.

"I guess we'll just go on shell- ing beans for a living," said the bride who has eight children by a previous marriage.

Dr. Mrs., Nauss  
Enjoy Trip  
Around World

Dr. and Mrs. Ray J. Nauss have just completed an exciting trip around the world. Leaving New Orleans March 18 aboard the Lykes Bros. S. S. Harry Culbreath, a 10,000 ton freighter, their first ports of call were Colon, Panama, San Pedro, Calif., and across the North Pacific Ocean to Yokohama, Japan, where they docked for two days on April 18.

On this first leg of the trip the cargo consisted of canned goods, fertilizer, carbon black, mussel shells, paint, bales of aluminum scrap, pig iron, baled cotton, tires and tubes, petroleum products, soy bean meal, oatmeal tallow and household goods.

During next month the freighter docked at Kobe and Osaka Japan, Keelung, Formosa, Manila, Soerabaja, Semarang and Cheribon, Java. While docked at latter port the Nausses said it was unsafe to go ashore due to the strong hatred for Americans by the communists there.

After spending a few days in Djokjakarta, Java, and Singapore, Malaya, they obtained passage aboard a Norwegian freighter, M. S. Leoville. After visiting the Island of Penang and other ports of call they sailed across the Bay of Bengal to Colombo, Ceylon. Due to monsoons which had flooded the canals the freighter was unable to complete loading her cargo of tea and coffee.

June 5 saw the freighter crossing the Indian Ocean, arriving at Suez, Egypt, June 15. As it was too late to go through the canal with the single convoy which passes from East to West daily she went through the next day with a convoy of 35 ships. It took 15 hours and the Nausses said the cooler Mediterranean weather was a welcome change after equatorial temperatures of 95 with humidity 97.

While sailing across the Mediterranean to Gibraltar sorrow came to the passengers and crew of the freighter when one of the women passengers dropped dead. She and her husband had been on the trip all the way from New York, other nine passengers having embarked at other ports. After passing through the Strait of Gibraltar, burial services were held 10 miles off shore in the Atlantic.

The Nausses docked July 2 at New York and traveled to Washington C. H. via train.

Class Enjoys  
Picnic Sunday

Members of the Golden Rule Class of Bloomingburg Methodist church enjoyed a picnic Sunday evening in the City Park. Mr. and Mrs. Robert Huff, Mr. and Mrs. Loren Noble and Mr. and Mrs. Arthur Thompson were hosts.

After a short business session the group enjoyed the firework display.

Those present were Mr. and Mrs. Rex Bloomer, and family, Mr. and Mrs. Carl Scott and family, Mr. and Mrs. Dale Thornton and family, Mr. and Mrs. Frank Slager, Mr. and Mrs. Robert Hughes, Mr. and Mrs. Donald Dennen, Mr. and Mrs. Charles Gibeau and family, Mr. and Mrs. Wilbur Rapp and family, Mr. and Mrs. Roy Coe and family, Mr. and Mrs. Charles Cunningham and family, Mr. and Mrs. Eli Craig and Mr. Wayne Cowdery.

Mrs. Bryant  
Entertains Club

Mrs. Dale Eakins and Mrs. Lyle Benjamin were guests of the Washington Homemakers Home Demonstration Club when the group met at the home of Mrs. Howard Bryant Monday evening.

Mrs. Carey Daugherty, president, conducted the short business session and secretary-treasurer, Mrs. Lou Smith, gave her report. Roll call was answered with members giving their pet peeve.

It was announced that the next get-together will be a family picnic at Washington Park Aug. 13. The September meeting will be held at the home of Mrs. Smith and the project will be making styles.

The remainder of the evening was spent re-caning chairs with Mrs. T. H. Hoffman and Mrs. Kenneth Horney as leaders.

Members present were Mrs. Daugherty, Mrs. Smith, Mrs. Kenneth Watson, Mrs. Donald Palmer, Mrs. Woodruff, Mrs. Hoffman and Mrs. Horney.

White Oak Grove  
MYF Group Meets

"You Can Do With Your Life What You Wish" was the devotional theme used by Robert Barker when the White Oak Grove MYF met in the church Sunday night. Ruth Barton read from the Scriptures and group singing was accompanied by Janet Knedler at the piano.

During the business session conducted by the president, Mike Wagner, a discussion was held regarding a group trip. Rickie Smalley gave a report on the week he spent at Sabina Camp and plans were made for other MYF members to attend.

A recreation period followed in the basement.

# Famous Florida Alligators Under Suspicion as Killers

TALLAHASSEE, Fla. (AP)—The cold blooded alligator, one of Florida's top tourist attractions, is suddenly under suspicion of being a man killer.

It has long been known that the lazy, repulsive-looking reptiles sometimes make unprovoked attacks on humans. Plenty of documented cases are on record but no clear-cut case of their killing a person has been established.

But a little more than a week ago a 9-year-old boy, Alan David Rice, disappeared from his home at Eau Gallie, not far from the military base where the earth days later his badly mangled body, with both arms missing, was found on the overgrown bank of a creek near his home.

Teeth marks on the body were clearly those of an alligator. Hunters killed an 11½ foot specimen found nearby. Inside its stomach they found the boy's arms and other parts of his body.

Whether he had drowned before the gator got to him could not be determined. There were no witnesses.

One doctor said the alligator probably killed him; another said the evidence was not sufficient to draw any conclusion.

Conservation officers began removing all alligators from the Eau Gallie streams, trapping and moving a dozen small ones and killing four over six feet long.

Within recent years a number of persons have been attacked and injured by alligators in Florida. In 1948 Martha Belle Smith suffered a broken left arm and a lacerated right hand at Weekiwahe Springs in an encounter with an alligator called 'Old Nine-foot-er.' She was swimming near a palm tree under which the reptile had made his lair when he appeared and seized her right arm.

"He rolled and lost his hold," she said. Like a streak of lightning he darted around me and then turned and started straight at me. I struck at his mouth with my left hand. He grabbed me again and I felt a bone snap in my hand. Then he turned and disappeared.

It was captured and killed by two professional alligator hunters.

Near Fort Pierce some years ago a 15-year-old girl was seized by a gator as she swam. But the reptile released her, inflicting only gashes on both sides of her left knee. A Miami girl last year was seized by the hand by an alligator and dragged into the water but she was rescued without serious injury.

Alligators under six feet are considered harmless to man but the big fellows are due all the respect given any other large, wild animal.

Blackish in color, they are thick bodied, muscular and the males grow to 16 feet.

The beasts range all around the Gulf of Mexico coast, up the Mississippi Lowlands as far north as St. Louis, Mo., and up the Atlantic Coast to southern Virginia.

It is illegal in Florida to kill or capture an alligator of less than six feet. The state protects its native gators for a variety of reasons. Two principal ones are their value as tourist attractions and their habit of digging water holes when the swamps dry up during droughts. These gator holes are frequently the only source of water for other wildlife.

## Cement Workers Take Firm Stand

CHICAGO (AP)—A union official says there will be no settlement of the cement workers strike on terms less favorable to employees than those of the 16-cent package negotiated with one firm.

Meanwhile, there was little sign of any early end to the rash of walkouts which has virtually cut off production in the nation's north-east quarter, and limited supplies drastically elsewhere.

Toney Gallo, general secretary-treasurer of the United Cement, Lime and Gypsum Workers Union, said today "our members have the determination and the backing necessary to get a general settlement equivalent that of the Marquette Cement Manufacturing Co.

## Couple Burned At Wiener Roast

DENNISON, Ohio (AP)—Mr. and Mrs. Joseph Logsdon of Pittsburgh are in Twin City Hospital here with burns suffered at a wiener roast.

Mrs. Logsdon, 55, was reported in poor condition with burns on the upper part of her body. Her husband, 58, was in fair condition with burns on his lower legs.

Friends said a can of inflammable fluid exploded while Logsdon was trying to start a fire at the picnic in nearby Scio.

## Red, White, Blue Velvet Newest Dinner Costume

Editor's Note: Following is the second in a series of five articles on the fall fashion show this week in New York.

By DOROTHY ROE  
Associated Press Women's Editor

NEW YORK (AP)—A red, white and blue plaid velvet dinner costume with shoes to match was the show today at Jane Derby's preview of fall fashions, on the first day of a crowded week of showings for the nation's fashion press.

The colorful and dramatic gown climaxed a showing of opulent dresses and suits designed for a prosperous and luxury-loving public.

Sensational is the only word for the Derby evening collection, which uses color with the abandon of a fourth-of-July fireworks display, playing up shocker colors and brilliant metallics, along with unusual prints such as bold floral printed chiffons.

Daytime suits and costumes here are fur-bearing, slender and easy of fit. If the suits aren't fur-trimmed they are satin-trimmed, and sometimes both fur and satin are used for a luxury touch, such as a mink-colored suit tied with a big brown satin bow.

The belted and bloused silhouette is the pet of the Nettie Rosenstein collection, in marked contrast with the loose, unfitted lines predominant in most other showings. Mrs. Rosenstein likes a neat waistline, and although she doesn't cinch it, she marks it with

a belt—wide or contoured but definitely shaping the silhouette.

The original advocate of the "little black dress," this designer again shows many sleek and sexy black outfits, notable among which is a long, slithery black crepe dinner dress with long sleeves and low-cut back, slit in front and looking like a suitable gown for a femme fatale.

Evening gowns here are luxurious and dramatic, the most effective being slender, draped and bearing trains.

Nantucket Island, Mass., has a population of 3,500 people. Nevertheless, there are 4,100 bicycles on the island. Any questions?

## Ex-Intelligence Aide, Wife Indicted In Spying Probe

NEW YORK (AP)—A one-time Army intelligence officer and his wife, former New Yorkers now living in Paris, were indicted Monday by a federal grand jury for conspiring to transmit U.S. secrets to the Soviet Union.

U. S. Atty. Paul W. Williams identified the couple as George Zlatovski, 47, and Jane Foster Zlatovski, 45.

A five-count indictment against the couple charged that they had conspired with a group of Russian nationals and with Jack and Myra Sobie and with Jacob Albam to transmit to Russia secrets vital to the defense of the U. S.

The Sobies and Albam have pleaded guilty to conspiring to obtain secret U. S. documents with the knowledge that they were to be transmitted to the Soviet.

## MORE INSIDE...

The Big M is the roomiest car in its field. To match the Mercury Monterey's hip room alone in any other car would cost you at least \$1,000 more. And behind the wheel, you can command Mercury exclusives like a power seat that "remembers" your favorite position, and a Merc-O-Matic Keyboard Control that outdates other push-button drives.

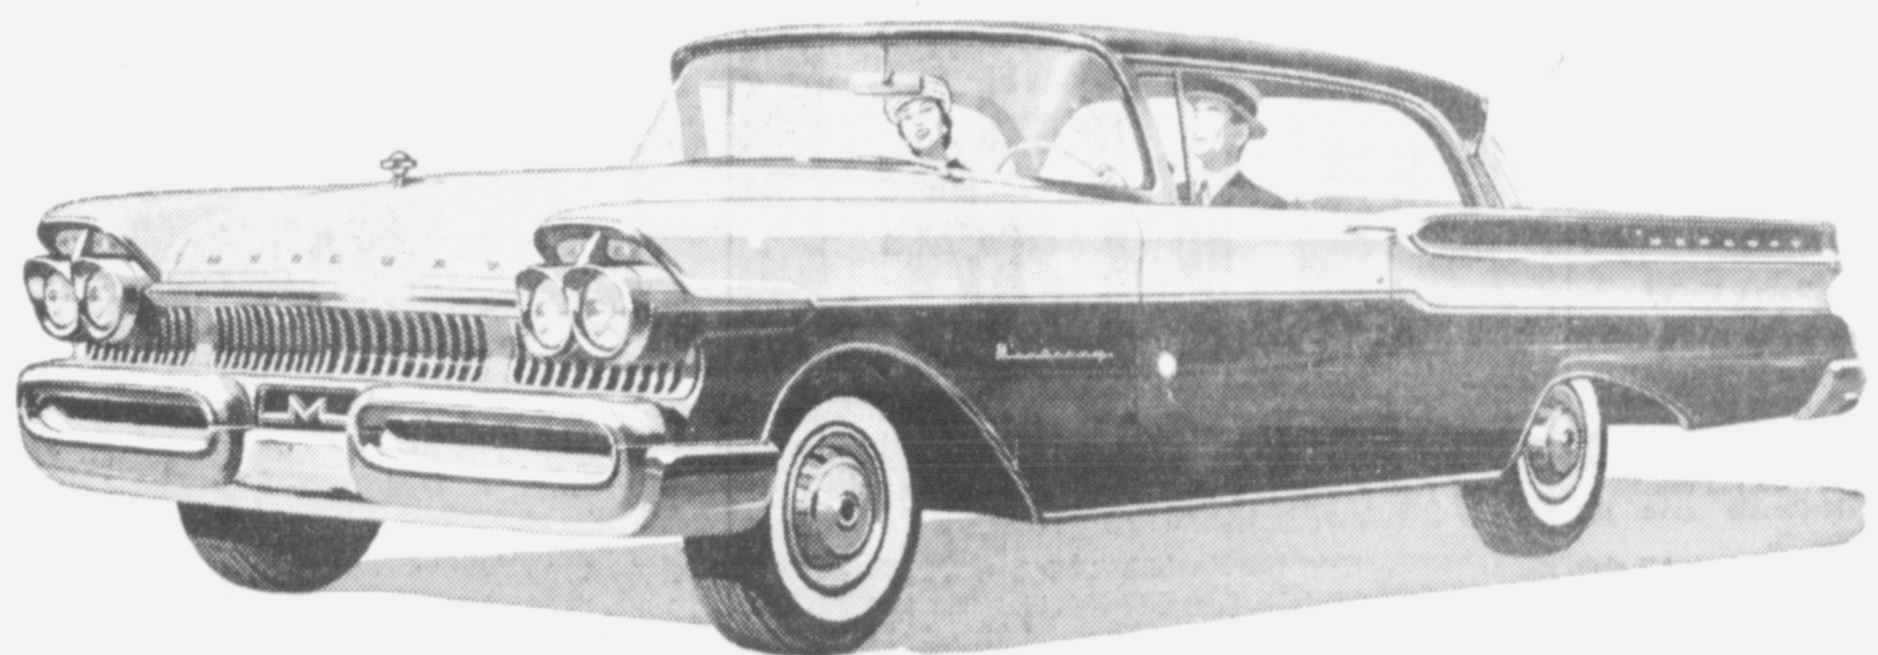

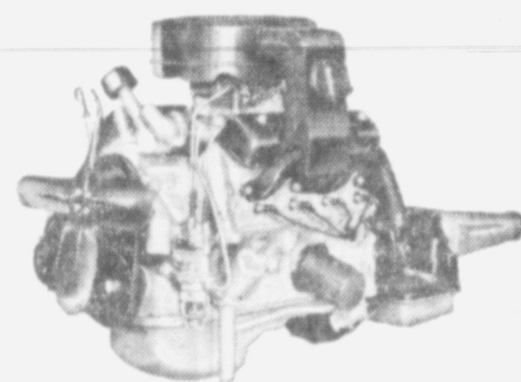

## MORE OUTSIDE...

The Big M is the widest car in its field. To match Mercury's width you'd have to buy one of America's three most expensive cars, costing at least \$2,000 more. And Mercury's Dream-Car Design is shared with no other car. In every distinctive feature, The Big M is styled to stay newer longer, protect future resale value.

## MORE UNDER THE HOOD...

No other car at the Monterey's price gives you such high standard horsepower (255). To match this power in any competitive car, you'd have to pay over \$150 more. The Big M gives you the highest torque, for a regular production engine, in its field (405 lb.-ft.). Mercury's standard compression (9.75 to 1) would cost you over \$500 more in any other car.

## ...MORE WAYS YOUR BEST BUY

To the above facts add these: You have to pay over \$200 more to get any other car with a real four-beam headlamp system, like The Big M's Quadri-Beam headlamps. Over \$80 more to get a four-barrel carburetor as standard equipment on any competitive car. Over \$130 more to match the Mercury Monterey's brake size. No other car at any price can match The Big M's

Floating Ride—achieved with the most effective combination of bump-smothering features ever put between you and the road: for example, Full-Cushion Shock Absorbers and swept-back ball-joint front suspension. The Big M brings you the greatest value increase in the industry—yet the price is still just an easy step up from the low-price three. Stop in today!

The price comparisons stated are based on factory-suggested retail delivered prices.

## 4-H Club Activities

### AMBITIOUS FARMERS

The regular meeting of the Ambitious Farmers of '57 was held at the Jeffersonville High School.

The meeting was opened by the vice president, Jerry Smith. Nine teen members answered the roll call. The secretary's report was given by Eldon Smith due to the absence of the regular secretary David Garringer gave the treasurer's report.

Joe Fisher, the club advisor, re minded the club that the project books are to be turned in at the extension office July 13 or July 20.

The date of the next meeting has been changed from July 12 to July 11 because of the swine clinic to be held on July 14. The meeting will be held at the Jeffersonville High School.

Bud Ritenour

### SUNNYSIDE YOYOS

The eleventh meeting of the Sunnyside Yoyos 4-H club was held at the city park. They had a picnic and played in the park. Afterwards they finished project books and had a swimming party which lasted un til 6:00 o'clock when Susan Wissler came after them. The next meeting will be at Mrs. W'ssler's home when everything must be ready for judg ing.

Jean Reynolds

### HAPPY-GO-LUCKY

The meeting of the Happy-Go-Lucky Club was called to order by president Ruthann La Follette. Seven members and two advisors answered roll call by naming their favorite state capital.

### Gun Collectors

#### To Meet Saturday

One of the largest, if not the largest, meeting of gun and Indian relic collectors ever held here, is scheduled for all day Saturday and Sunday at the Merchants Building at the Fairground.

It is being held by the Central Ohio Gun and Indian Relic Collectors Assn. of which Charles Kisl ing is president. Ervin Ritter, vice president, and Coyt A. Stookey secretary-treasurer.

Quite a number of new collectors are expected in addition to the usual large number of regular exhibitors, so that well over 100 exhibitors should be present for the big meeting.

In addition to guns and Indian relics, a wide range of other articles will be offered for sale and trade by dealers from several states.

The meeting and display are open to the public. There is no admission charge. Women of the VFW will furnish food and refreshment both days.

### Same Format Used In Bilko Program

By CHARLES MERCER

NEW YORK (AP) — Of all the comedy reruns on television these summer evenings, this department's favorite is the Phil Silvers Show.

Even though you've seen some of the show's before, Bilko and the boys of his platoon come through with freshness on the screen.

Meanwhile, Silvers and company have started work on next season's films. The producer of the program, Edward J. Montagne, was saying the other day that Silvers fans can look forward to these pleasant things next season:

1. There will not be any basic changes in the format of the program. It still will be Bilko in and out of uniform and the same members of the platoon. There's no danger of any disaster such as a dame trapping our sergeant into marriage.

2. The kick-off program on Sept. 17 will be a presentation of "The Merry Widow" in which Sgt. Bilko actually sings.

3. The chances are that the platoon will move to Europe for a while. That is, the story line will move to Europe while the platoon maintains its production schedule in New York using films for the authentic European background.

"There are possibilities of a lot of fun if the platoon has some new commanding officers for a brief change," Montagne said. "Maybe, for example a haughty British type. But we have to be careful not to offend our allies. The Army has given us the fullest cooperation in the show, checking us out on authentic d-tails."

"The Army likes us fine. In the Pentagon they feel that Sgt. Bilko has been a real help in increasing enlistments. So we don't care to make fun of our allies in any way."

Approval of the Phil Silvers Show extends, in fact, all the way to the commander-in-chief in the White House. After President Eisenhower missed one program in March, Montagne said, CBS received a White House request for the film.

## These Are the Queen Candidates

EDITORS NOTE: A Fayette County Fair Queen will be named from among the 10 finalists chosen by nominating ballots cast by Record-Herald readers. Forty two Washington C. H., business places are cooperating in a contest to name the Queen, each one dollar purchase entitling you to one vote. And, to make you better acquainted with the candidates, we're introducing them one by one.

Patsy Hollar, 17, who will be a senior at New Holland High School next year, was Miss New Holland in last year's contest for Miss Pumpkin Show at Circleville.

Daughter of Mr. and Mrs. R. G. Hamilton, Route 5, she isn't quite sure about her future plans but leans toward being a secretary.

She is now employed at the A & F Dairy Bar. A member of the Church of Christ, her hobbies are reading, skating and collecting salt and pepper shakers.

### AMBITIOUS FARMERS

The regular meeting of the Ambitious Farmers of '57 was held at the Jeffersonville High School.

The meeting was opened by the vice president, Jerry Smith. Nine-teen members answered the roll call. The secretary's report was given by Eldon Smith due to the absence of the regular secretary. David Garringer gave the treasurer's report.

Joe Fisher, the club advisor, reminded the club that the project books are to be turned in at the extension office July 13 or July 20.

The date of the next meeting has been changed from July 12 to July 11 because of the swine clinic to be held on July 14. The next meeting will be held at the Jeffersonville High School.

186 Entries To Vie in Ohio Amateur

Qualifier Due Today On Springfield Greens For Top State Title

SPRINGFIELD, Ohio (AP)—A field of 186, studded with stars who have won various Buckeye titles, today went into the first half of a 36-hole qualifier in the 51st Ohio Amateur golf championship.

Springfield County Club's rolling, trap-infested 6,545-yard, par 72 course is the battleground.

At the end of the two-day qualifier, the 64 low scorers will dash into match play, ending with Sunday's 36-hole title clash.

Favored to fight it out for medal honors are Bob Rankin of Zanesville, the 1955 champion who has four straight practice rounds under par; Jackie Nicklaus, the Columbus teenager who has won the state high school crown the last two years, and last season whipped the state's best professionals to become the third amateur ever to win the Ohio Open title; and Bob Ross Jr., the hometown pride who won Buckeye Junior laurels in 1955 and 1956.

Bob McCall, who won the title a year ago as a Cleveland resident, was ruled ineligible to defend his crown because he has moved to Indiana, but Rankin and four other ex-champions will try to win again. They are John Florio, Columbus veteran who triumphed in 1929 and 1932; Ed Preisler of Cleveland, the 1946 winner who just two weeks ago tied for the Pre-Seniors crown; Tom Jones, Youngstown redhead who won in 1951 and Francis Cardil of Columbus, the 1952 victor.

The Cardil family is well-represented. Francis brought along his brother Gene, his uncle William, and his cousin Gueety. All are entrants.

Larry Snyder of Athens, this year's Junior champion, heads a group of six who have won that title. The others are Rankin, Ross, Gene Cardil, Warren Orstein of Cleveland and Bob Roll of Greenville.

The public links contingent of 18 is spearheaded by Jack Zimmerman of Dayton, two-time victor in the State Pay-As-You-Play Tourney, and Ed Koski of Steubenville, twice winner of the National Polish championship.

Dave Daniels and Byron (Barney) Hunt of Columbus, both winners of the State Public Links crown, are among the private club entrants.

In the final tune-up Monday, Rankin fired his fourth straight sub-par round, a 70. He teamed with Ohio Golf Assn. (OGA) president Don Blancett of Zanesville to tie for the top in a best-ball event. They had a 66 to deadlock with Dr. Harry Duceilli Jr. and John Busmeyer of Wyoming.

Girls Softball Is Under Way

Girls softball got under way at the Park on Oakland Ave. here Monday evening with the first game of the double-elimination tournament going to the T-Panthers by the one-sided score of 24 to 7. The Jet-Etts were the victims.

It was a right good game until the T-Panthers broke out with a 14-run spree in the sixth.

The next game of the tourney is scheduled for 6:30 p. m. Tuesday (today). It will be between the Linettes and De-Dees.

The girls softball games are a part of the community recreation program. Four teams have been formed and more are in prospect. Fred Domenico, the recreation director, said these first few games are being used for a sort of "leveling off" process and that it is possible the personnel will have to be shuffled to get better balance and competition.

The loser of the game this evening (Lionettes or De-Dees) will meet the Jet-Etts (loser of Monday evening's game) Thursday at 6:30 p. m.

Stengel Grumbles At All-Star Vote, Rival Managers

ST. LOUIS (AP)—Casey Stengel continued to voice his displeasure over the fans' All-Star vote, as well as tactics used by rival American League managers, as Jim Bunning, his "second choice" starter, prepared to face Philadelphia's Curt Simmons in the silver anniversary of the annual All-Star game today.

The manager of the New York Yankees, in disagreement with the fans over several of their All-Star selections, and indignant because Cleveland used pitcher Early Wynn, his originally intended starter, last Sunday, promised some changes next year.

"I think the present way of picking the players should be continued even if they are not done the right way. It's an honor to be on the team and it doesn't make any difference who chooses them. Sometimes it looks like politicians are at work and there are one or two players on my team I'd be a little leery of starting. The way they voted in a certain city could kill the whole thing, but you don't want to rob the public who comes to the game."

Stengel then disclosed he will propose a rule prohibiting managers from starting pitchers who have been named to the All-Star team any later than Saturday prior to the big game. That would assure at least two days' rest.

"I had planned to start Wynn," Stengel explained, "because of his experience and his knowledge of the National League players but when I learned he pitched Sunday I switched to Bunning because he, too, is a right-hander and is the most rested."

Realizing that his words might be construed as a reflection upon the young Tiger fireballer, Casey added:

"I don't want to criticize my starting pitcher. After all, he owns one of the best records and has beaten every club in the league, including us two or three times."

Stengel's criticism of Cleveland's use of Wynn Sunday drew a sharp reply from Kerby Farrell, rookie manager of the Indians.

"I'm a hell of a lot more interested in beating the Chicago White Sox in a doubleheader than winning the All Star game," he said.

Brooklyn Manager Walter Alston, who will direct the National Leaguers, said he sympathized with Stengel's attitude, but added he didn't see how the pilots could be asked to sacrifice using a star pitcher in a close pennant race.

Stengel, who is sensitive about his All-Star managerial record (he's lost five of six games), was not particularly happy over the selections of Detroit's Harvey Kuenn at shortstop, Cleveland's Vic Wertz at first base and Baltimore's George Kell at third base. He made no secret of his belief that his own Bill Skowron at first, Gil McDougald at shortstop and Boston's Frank Malzone at third would give his league better representation.

"I'm a hell of a lot more interested in beating the Chicago White Sox in a doubleheader than winning the All Star game," he said.

Brooklyn Manager Walter Alston, who will direct the National Leaguers, said he sympathized with Stengel's attitude, but added he didn't see how the pilots could be asked to sacrifice using a star pitcher in a close pennant race.

Stengel, who is sensitive about his All-Star managerial record (he's lost five of six games), was not particularly happy over the selections of Detroit's Harvey Kuenn at shortstop, Cleveland's Vic Wertz at first base and Baltimore's George Kell at third base. He made no secret of his belief that his own Bill Skowron at first, Gil McDougald at shortstop and Boston's Frank Malzone at third would give his league better representation.

Stengel's criticism of Cleveland's use of Wynn Sunday drew a sharp reply from Kerby Farrell, rookie manager of the Indians.

Stengel then disclosed he will propose a rule prohibiting managers from starting pitchers who have been named to the All-Star team any later than Saturday prior to the big game. That would assure at least two days' rest.

"I had planned to start Wynn," Stengel explained, "because of his experience and his knowledge of the National League players but when I learned he pitched Sunday I switched to Bunning because he, too, is a right-hander and is the most rested."

Realizing that his words might be construed as a reflection upon the young Tiger fireballer, Casey added:

Redleg Brass On Prowl for New Hurlers

ST. LOUIS (AP)—While standout members of the Cincinnati Redlegs were toiling in today's All-Star Game here, team brass was quietly hunting pitchers.

Since the deadline for trades with other major league teams has past, the Reds' best prospects are on farm clubs.

Pitching coach Tom Ferrick was dispatched to the West Coast Monday to watch Charley Rabe in his next start for Seattle of the Pacific Coast League.

Rabe, a southpaw Texan, trained with the Redlegs this spring but was sent to Seattle. He has compiled a 10-5 record.

Redleg officials also have their eyes on Bob Kelly, who has hurled 16 victories against four defeats for Nashville, current leader in the Southern Assn.

The Redleg pitching problem became acute Sunday in a doubleheader with St. Louis here when Hal Jeffcoat, who owns an 8-6 record, had to be replaced because of a pulled neck muscle.

That injury was not as serious as one a few innings later. A hard-hit ball caromed off the foot of reliever Herschel Freeman and sidelined him indefinitely.

The Redleg pitching troubles have been most marked in recent weeks. In the last 10 games, the Reds have put in 36 hurlers, including seven in Sunday's nightcap. And the Reds have lost the last five games, plummeting from first to fourth place in the National League.

Several new improvements have been added to the grandstand, clubhouse and other physical facilities. Among them is a new \$85,000 recreational and community center for horsemen, grooms, and track personnel.

# 186 Entries To Vie in Ohio Amateur

Qualifier Due Today  
On Springfield Greens  
For Top State Title

SPRINGFIELD, Ohio (AP) — A field of 186, studded with stars who have won various Buckeye titles, today went into the first half of a 36-hole qualifier in the 51st Ohio Amateur golf championship.

Springfield County Club's rolling, trap-infested 6,545-yard, par 72 course is the battleground.

At the end of the two-day qualifier, the 64 low scorers will dash into match play, ending with Sunday's 36-hole title clash.

Favored to fight it out for medal honors are Bob Rankin of Zanesville, the 1955 champion who has four straight practice rounds under par; Jackie Nicklaus, the Columbus teenager who has won the state high school crown the last two years, and last season whipped the state's best professionals to become the third amateur ever to win the Ohio Open title; and Bob Ross Jr., the hometown pride who won Buckeye Junior laurels in 1955 and 1956.

Bob McCall, who won the title a year ago as a Cleveland resident, was ruled ineligible to defend his crown because he has moved to Indiana, but Rankin and four other ex-champions will try to win again. They are John Florio, Columbus veteran who triumphed in 1929 and 1932; Ed Preisler of Cleveland, the 1946 winner who just two weeks ago tied for the Pre-Seniors crown; Tom Jones, Youngstown redhead who won in 1951 and Francis Cardil of Columbus, the 1952 victor.

The Cardil family is well-represented. Francis brought along his brother Gene, his uncle William, and his cousin Guetty. All are entrants.

Larry Snyder of Athens, this year's Junior champion, heads a group of six who have won that title. The others are Rankin, Ross, Gene Cardil, Warren Orstein of Cleveland and Bob Roll of Green-ville.

The public links contingent of 18 is spearheaded by Jack Zimmerman of Dayton, two-time victor in the State Pay-As-You-Play Tourney, and Ed Koski of Steuben-ville, twice winner of the National Polish championship.

Dave Daniels and Byron (Barney) Hunt of Columbus, both winners of the State Public Links crown, are among the private club entrants.

In the final tune-up Monday, Rankin fired his fourth straight sub-par round, a 70. He teamed with Ohio Golf Assn. (OGA) president Don Blaneett of Zanesville to tie for the top in a best-ball event. They had a 66 to deadlock with Dr. Harry Duceilli Jr. and John Busmeyer of Wyoming.

## Girls Softball Is Under Way

Girls softball got under way at the Park on Oakland Ave. here Monday evening with the first game of the double-elimination tournament going to the T-Panthers by the one-sided score of 24 to 7. The Jet-Etts were the victims.

It was a right good game until the T-Panthers broke out with a 14-run spree in the sixth.

The next game of the tourney is scheduled for 6:30 p. m. Tuesday (today). It will be between the Linettes and De-Dees.

The girls softball games are a part of the community recreation program. Four teams have been formed and more are in prospect.

Fred Domenico, the recreation director, said these first few games are being used for a sort of "leveling off" process and that it is possible the personnel will have to be shuffled to get better balance and competition.

The loser of the game this evening (Linettes or De-Dees) will meet the Jet-Etts (loser of Monday evening's game) Thursday at 6:30 p. m.

## Stengel Grumbles At All-Star Vote, Rival Managers

ST. LOUIS (AP) — Casey Stengel continued to voice his displeasure over the fans' All-Star vote, as well as tactics used by rival American League managers, as Jim Bunning, his "second choice" starter, prepared to face Philadelphia's Curt Simmons in the silver anniversary of the annual All-Star game today.

The manager of the New York Yankees, in disagreement with the fans over several of their All-Star selections, and indignant because Cleveland used pitcher Early Wynn, his originally intended starter, last Sunday, promised some changes next year.

"I think the present way of picking the players should be changed," Stengel said.

## 19th Hole For Golf

The weather has put considerable of a damper on the Friday evening golf league at the Country Club; it has forced at least two postponements. But, barring another rain, action will be resumed Friday evening, Tony Capuana, the club prop said Tuesday.

Meanwhile the two handicap tournaments are progressing, with the original big fields being slowly but surely whittled down by the process of elimination.

The men's tournament started three weeks ago; the women's tournament is now in the first round.

THIS AND THAT from the pro's notebook:

Among the best-of-the season scores turned in last week were: Bob Cunningham 38; Cecil R. Vanzant 39; Bernie Light 42 (wife and daughter kept score); Mrs. William Junk 54 and John Petty 82 on 18 holes.

Paul Anderson was out for the first time in five years last week.

Art Vetter had his first-ever birdie on No. 5.

Ott Reno, using his new golf clubs, had the biggest thrill of his golf career when he sank a 160-yard approach on No. 4. He used a No. 4 iron. Robert Cline, Howard Brown and Bill Powers were the witnesses.

Mrs. Max Lawrence turned in a 96 the first time she ever played golf.

Mrs. Carl Mason has a new secret weapon—a new putter. With it, she had eight one-putt greens out of fifteen.

Someone has been rolling a golf cart over the greens—very bad for the greens.

Mrs. Willard McLean had only 13 putts when she played nine holes in 52 strokes.

Joe Waddle, formerly of Washington C. H., was the guest of Dutch Rife.

Mrs. Paul Pennington is sporting a new pair of golf shoes.

Mrs. William Wead has the bright red and white shoes.

Dick Korn, who last week passed the state dental board examination, is home now for at least part of the summer. He is a former club champion. His brother Ed Korn has a new set of irons.

Paul Shoultz, former football star in Washington C. H. High School and Miami University, was playing golf here last week. He is now assistant football coach at Northwestern University.

Frank Truitt, former Bloomingburg coach and one of the better golfers of the Country Club here, is getting ready for his first season as head basketball coach at Columbus North High School this fall.

Charles Buxton's chatter is missed around the club. He is now living in Texas.

The Redleg pitching troubles have been most marked in recent weeks. In the last 10 games, the Reds have put in 36 hurlers, including seven in Sunday's nightcap. And the Reds have lost the last five games, plummeting from first to fourth place in the National League.

## Women's Tourney Delayed by Rain

SANDUSKY (AP)—Delayed one day by rain, the State Women's Golf Tournament made another start today.

The nearly 40 score entries qualify for 15 places today in medal competition. The 16th position automatically goes to the defending champion, Anne Richardson of Columbus.

The quarter-finals and semi-finals will be played Thursday, instead of Wednesday and Thursday. The 36-hole finals will be on Friday, as planned.

## Trotters 'N' Pacers

By the gate

The night harness racing program has just completed the first full week at Grandview near Cleveland. Scheduled to go 44 nights through Aug. 20, McKinley Kirk the general manager of the half mile oval, reports a good increase in the attendance and mutual handling.

Several new improvements have been added to the grandstand, clubhouse and other physical facilities. Among them is a new \$85,000 recreational and community center for horsemen, grooms, and track personnel.

Hugh Beatty is racing his stable at Grandview and brought home the 5-year-old pacer Betty's Folly in 2:07.3 Friday night. The mare is owned by Russell Beatty of near Washington C. H. The win marks a new race record for the daughter of Callie G.

Beatty has driven in six races, winning two to date.

Fleet Song, a 6-year-old trotter owned by Dr. H. K. Bailey and Wayne W. Galvin and driven by Dick Buxton, finished second to Lt. Dean in the first heat and won the second to take the \$4,000 Western Reserve trot. The first heat was in 2:04.3 and the second 2:05.1.

The Asher brothers, Richard and Joe of New Holland have had two winners at Grandview. One was with Cindymite a 3-year-old pacer in 2:06.4 and the other with Berrymite, a 4-year-old in 2:04.1. Both were driven by Dick Buxton.

Barney Coe has his stable at Grandview and reports that he will be ready to race as soon as he can get his horses entered.

So Big, the 4-year-old pacer owned by Miss Letitia Garrett of Wilmington, finished second to Berrymite in 2:04.1. The Wilmington colt, with winnings of \$10,094 in 1956, has a record of 2:06.3.

Mr. and Mrs. Ormond Dewey and Mr. and Mrs. L. M. (Pete) Hayes have just returned from a week's tour of some of the eastern tracks. They visited at Saratoga Springs, N. Y., where Dewey's 3-year-old colt, Gold Mine, is in training in the Eddie Boyer stable. They also visited Yonkers Raceway and Vernon Downs, both in New York State.

Eddie Cobb, the popular young trainer and driver from Washington C. H., has been busy driving in eastern track circuit. Latest word from Cobb is that he is shipping Times Square to the Grandview Oval from Yonkers.

## Rained-Out Games Are Rescheduled

Tuesday morning Max Lawrence, Little League commissioner, announced the rescheduling of two rained-out games.

He said the Kernels will play the Flashes Tuesday evening (tonight) and that the Realtors will play the Cubs Wednesday evening. Game time for both the rained-out games will be 6 o'clock. At 7:30 these games have been played, the regular scheduled games will get into action.

In order to play the postponed games, the minor league games originally scheduled for 6 p. m. at Wilson Field, will be moved to Armbrust Field where they will be part of a twin bill, with the regularly scheduled games. The minor league games moved over from Wilson Field will be the first game of the doubleheader at Armbrust Field and will begin at 5:30 p. m.

Lawrence added that any parents of the players are welcome to help umpire the games at Armbrust Field.

The Soaniards who accompanied Columbus on his fourth voyage gave Costa Rica, or "rich coast," its name while they saw Indians there wearing gold ornaments.

## Jeff Edges Good Hope In Babe Ruth League

In a very tightly fought Babe Ruth game played at Good Hope Monday evening, the Jeff nine edged the Good Hope boys 10-9.

Errors were again the downfall of the Good Hope team, but they also deserved a better fate than defeat. Going into the top half of the last inning, the Good Hopes had a 9-8 lead, but the Jeff boys wasted no time in changing the lead to 10-9.

Jim Bush won his second game of the year, and second straight, in downing the Good Hope team, but was in constant trouble as he walked 11 batters. Bush, no push-over with the willow, helped his own cause with two hits and three runs scored.

Don Strough, on the hill for Good Hope, went the distance while striking out 8 and walking 7.

Strough, Larry Brock and Mike Hatfield got the only three hits off Bush.

Jim Cook, behind the bat in this contest, and Don Duncan, first base man, had two hits apiece for Jeff, as did Bush.

## Determined Golfer Shoots from Rooftop

DALLAS (AP)—Bob Kohler is a determined golfer. Competing in a tournament at Brook Hollow Club, one of his shots landed on the roof of the pro shop. He climbed the roof and shot from there, but he lost the hole to his opponent.

## Transamerica Pace Canceled By Yonkers

NEW YORK (AP)—Yonkers Raceway Monday canceled the \$50,000 Transamerica Pace scheduled for Thursday shortly after a federal judge denied a motion to punish members of the Standardbred Owners Association for contempt by failing to enter horses in races at the harness track.

The court ruling was issued by Judge Archie O. Dawson in the latest development over a dispute between the Yonkers management and owners over purse distribution.

Martin Tananbaum, Yonkers president, said the Transamerica pace was canceled "because of insufficient entries." The Transamerica was a series of races held at various tracks with horses accumulating points to become eligible for the finale.

"We have scheduled instead a \$50,000 Harness Tracks of America Invitation for Saturday night with entries to close Wednesday at 9 a. m.," Tananbaum said. "The fullest effort will be made to apply the conditions which applied in the canceled Transamerica final."

Among the leading contenders for the Transamerica Pace laurels was Steammin Demon, owned by George W. VanCamp of Circleville, Ohio.

It was not learned immediately whether the Demon would be among those entered in the \$50,000 substitute event Saturday night.

## Feller Picks L. A. Top Baseball City

LOS ANGELES (AP)—Bob Feller says he believes Los Angeles would be the most fertile baseball territory in the nation, if a major league club moved here.

"In my opinion, if major league ball cannot succeed in Los Angeles it should not be successful anywhere," the former Cleveland Indian fireball pitcher said Monday.

## Frick Gives His Views on Team Moves

ST. LOUIS (AP)—Baseball Com-  
missioner Ford Frick, re-elected  
to a seven-year term at \$65,000  
per, thinks it is "inconceivable"  
that New York should become a  
one-club town.

In the face of consistent reports  
that the Brooklyn Dodgers are go-  
ing to Los Angeles and the New  
York Giants to San Francisco, the  
commissioner expressed a "purely  
personal opinion" today on the  
New York situation.

"I think it is inconceivable that  
an area with a population of 15  
million should have only one fran-  
chise," he said. "If the Dodgers  
and Giants should move—and I am  
not saying they will—I think the  
territory should be left open for  
another team. I think it should be  
declared open territory for any  
league."

The matter of franchise moves  
came up at the National League  
meeting, shortly before the 62-  
year-old Frick was re-elected at  
the joint meeting of the two  
leagues for a term running to  
Sept. 21, 1958. His current term  
expires in 1958.

The Dodgers and Giants got per-  
mission to move to Los Angeles  
and San Francisco at a special Na-  
tional League meeting in Chicago,  
May 28. President Warren Giles  
said he brought up the matter  
himself.

"I think it is incumbent upon  
the president of the National  
League to ask Mr. O'Malley (Wal-  
ter O'Malley, Dodger president)  
and Mr. Stoneham (Horace Stone-  
ham, Giants president) if they  
have anything definite to report,  
said Giles. "I turned directly to  
both men and both answered 'not  
a thing.'"

Granada when it was a Spanish  
colony prior to 1819.

## Low Hoard Turns Pro, Finds Self in Middle of Rhubarb

NEW YORK (AP)—A professional  
just one day, Low Hoard today  
found himself the middleman in  
international war of tennis nerves.

Hoard, the big Australian Davis  
Cup star, signed Monday to play  
for Jack Kramer's troupe for the  
fatted figure ever given a pro  
player—\$125,000 for two years.

The ink still was wet on the con-  
tract when in rapid-fire order:  
1. Pancho Gonzales, the man  
Hoard was signed to play, said he  
would not appear in Kramer's  
"Tournament of Champions"  
starting Saturday in Forest Hills.

2. The Lawn Tennis Assn. of  
Australia launched a move to ban  
Hoard and Kramer's entire troupe  
from playing on any official courts  
Down Under.

The sudden turn of events left  
Hoard, who only last Friday won  
his second straight Wimbledon  
championship, bewildered. He was  
especially hurt at remarks by offi-  
cials in Australia, accusing him  
of breaking his word.

Don Ferguson, president of the  
LTAA, accused him of "causing  
great disappointment to the ten-  
nis public and officials in Ireland,  
Europe and America, in which  
countries we had arranged for  
him to play as a member of the  
Australian team."

"I don't know why Mr. Ferguson  
said those things," said Hoard, ob-  
viously distressed. "I had to be  
guided by my own interests. I  
didn't know when my back might  
act up again."

He was referring to the fact that  
his back has bothered him on  
numerous occasions in the past  
year and on occasion, he has been  
forced to take

## Supreme Court Weighs Soldier's Personal Rights

WASHINGTON (AP) — The Supreme Court weighed the constitutional rights of a soldier today to determine whether the government's decision to let him be tried in a Japanese court.

The court, which listened to nearly four hours of legal debate Monday, gave no indication how soon it will hand down its decision.

In winding up arguments seeking to block Girard's trial by Japan, Earl J. Carroll, one of his lawyers, said that if such a trial were permitted "it probably would destroy the morale of our soldiers forever."

Solicitor General J. Lee Rankin contended the executive branch of the government acted within permissible discretion in deciding to yield to Japan's demand that Girard be tried in its courts for the death of a Japanese woman.

Rankin said that among other factors considered was evidence that Girard enticed the woman to come forward and pick up scrap metal on a firing range. Rankin noted, however, that Girard has denied he induced the woman to approach him.

**THE WOMAN**, Mrs. Naka Sakai, was fatally wounded last Jan. 30. Girard is accused of shooting her in the back with an empty cartridge casing fired from a grenade launcher. He was assigned at the time to guard a machinegun and some field jackets.

Carroll asked the court: "How can you turn over to Japan a soldier who carries out his duty?"

To do this, he said, might result in a situation where a State Department diplomat abroad, endangered by an advancing rioter, might turn to a Marine and say, "Shoot him as he comes over the threshold."

"The Marine," said Carroll, "might very well hand his gun to the diplomat and say, 'Here, shoot him yourself. I don't want to be tried!'"

Carroll's colleague, Joseph S. Robinson, contended that the status-of-forces agreement with Japan was unconstitutional. At one point he called the status-of-forces agreements a "self-out" program that strips constitutional rights from soldiers.

Rankin's argument was that while Girard was on official duty, he was not authorized to shoot and it was not necessary to shoot.

Under the agreement with Japan, said the solicitor general, the executive branch of government in deciding to turn Girard over to Japan made a decision that could not be considered unreasonable or capricious.

**HE CONTESTED** Girard has no personal immunity from prosecution by Japan.

The soldier, a specialist third class from Ottawa, Ill., is confined to Camp Whittington, a U. S. Army base near Tokyo.

Girard's lawyers want the Supreme Court to issue a writ of habeas corpus, releasing the soldier from Army detention.

The attorneys also want the Supreme Court to affirm the decision by U. S. Dist. Judge Joseph C. McGarraghy here. McGarraghy said the government could not turn Girard over to Japan and if he is to be tried it must be by U. S. court-martial.

The government is appealing from the part of the decision which forbids it to turn Girard over for a Japanese trial.

### Neither Driver Cited Following Collision

No one was charged in an accident at the intersection of Market and Hinde Sts. about 12:55 p. m. Monday.

The mishap occurred when Henry Lee Anders, 18, of 1031 Broadway, tried to make a right turn from Market St. onto Hinde and collided with the side of a car driven by Fulton Leroy Terry, 22, of 538 Harrison St.

Police said that Terry was attempting to pass Anders at the time, and that Anders had the right-of-way.

### Conviction Reversed

WASHINGTON (AP) — The U. S. Court of Appeals has reversed the contempt of Congress conviction of Marcus Singer, Cornell university zoology professor who refused to name onetime Communist associates.

## Questions Arise At Oil Well Here

Is Kewanee's first test well near the end? Will it be abandoned as a dry hole?

These are the questions now arising as result of little heat made in drilling. There are no official answers. It is now considered possible that the drill has struck granite, although no announcement regarding this has been made.

Neither has there been any hint as to whether oil or gas has been found. Officials at the well continue to give out only the depth of the well.

At 8 a. m. Tuesday the announced depth was 4,706 feet and, apparently, the "going" was difficult. At 10 a. m. work of pulling the 4,706 feet of drill shaft and changing bits was started. The drill had gone down 30 feet in 24 hours.

Indications are that within the week something definite will be known regarding the well being drilled. The question of whether other test wells will be drilled in the county at this time also may be answered soon.

## Russia Shuns U. S. A-Plan

**Reds Ask Lengthy Ban on Bomb Tests**

LONDON (AP) — Brushing aside the U. S. proposal for a 10-month ban on H-bomb tests, Russia insisted Monday they be suspended for at least two years and that an East-West formula be worked out completely renouncing nuclear weapons.

Russia's Valerian Zorin rejected key points of the latest U. S. proposals in a 90-minute speech before the five-nation U. N. Disarmament subcommittee.

British Foreign Secretary Selwyn Lloyd termed the speech disheartening while Jules Moch of France said it "seemed propagandist."

One U. S. official said the speech would disappoint anyone looking for concessions from the Kremlin. But he contended that at least Zorin took no backward step.

On the positive side, Zorin again said his government was convinced a partial disarmament treaty could be worked out. Apparently he meant it could if the West accepted Soviet proposals.

**THE SOVIET** delegate rejected the U. S. proposal that scientists be assigned to map out how a suspension of nuclear tests might be enforced.

"To bring experts together now is a waste of time," he said.

He again demanded that nuclear tests be suspended at once for two or three years. Russia, he added, would consider Western demands that such a suspension be linked with a cutoff of nuclear weapon production. But he renewed demands, which the West has rejected, that such an agreement contain a renunciation of use of nuclear weapons.

After the tests have been stopped, he said, a limited disarmament pact should call for (a) a complete ban on production of nuclear arms, (b) arrangements for destroying all stocks of nuclear arms and (c) a big power pledge renouncing use of nuclear weapons.

## 30 Drivers Daily

(Continued from Page One)  
The driving license of a motorist convicted under the point system law for up to a year or place him on probation.

A maximum penalty of \$500 fine and six months in jail is provided for motorists who drive in violation of the court order.

Drivers get their licenses back after satisfying the court decree and have their point record wiped clean. They start a new score for further convictions and bond forfeitures.

Six points are entered for traffic manslaughter, driving while drunk or under the influence of drugs, leaving an accident scene or driving while a license is under suspension or revocation; three points for reckless operation and two for speeding and other moving violations.

**THE BUREAU** said the point system law requires no minimum penalty for driving while a license is under suspension.

The present driver license law, still in effect, permits suspension for up to three years for a felony conviction in connection with the use of a motor vehicle. The same law also carries a minimum jail sentence of two days for driving while a license is suspended. Maximum penalty under the law is a \$500 fine and six months in jail.

Braden said warning notices under the point system urge motorists to avoid getting a higher score.

"Our driving records show . . ." the warnings begin. Then comes this plea:

"We are certain that with increased effort on your part you can join the thousands of Ohio drivers who obey the traffic laws and keep a clean driving record."

"This department is responsible for the improvement of drivers operating upon the Ohio highways, and is authorized to seek suspension of the license of any person whose record shows that he is a repeating violator of the traffic laws."

## Arbitration Urged In Cincy Dispute

CINCINNATI (AP) — Cincinnati Mayor Charles P. Taft has proposed that a Teamsters union strike that has paralyzed big building projects here be submitted to arbitration.

Taft also suggested the strikers return to work pending settlement by arbitrators.

The mayor's suggestion came Monday, after the Teamsters voted 375-12 against accepting the latest offer of 45 major Cincinnati contractors.

The offer to the Teamsters, who drive concrete mix and building materials trucks, was for a 35-cent hourly wage increase spread over three years, and vacation pay based on a 44-hour week.

## Both Sides Cautious in Clinton Trial

KNOXVILLE, Tenn. (AP) — A jam-packed crowd was expected in federal court today to watch opposing lawyers continue their cautious maneuvers toward completing the jury for the "Clinton trials," a key test in the battle over segregation in public schools.

Three men and a woman were accepted for duty Monday after searching examinations, pivoting on the words, "Prejudice," and "mixing the races."

The jury will hear the story of the rioting last autumn in the little town of Clinton, Tenn., when Negro students were enrolled under court order in the high school, previously all white. It is the first state-supported secondary school in Tennessee where integration was attempted.

As a result of the violence, 15 Tennesseans and a Northern segregationist, John Kasper were indicted for criminal contempt. They are charged with violating a federal injunction against interference with integration.

The trials, which opened Monday, immediately took on a unique character.

Five, six and sometimes more attorneys from Tennessee, Georgia, Alabama, Louisiana and Maryland crowded together.

Robert L. Dobbs of Memphis, doing most of the examination of candidates for the jury, came regularly to the same question:

"If you hold strong feelings on mixing the races, would that so prejudice you that you could not give these defendants a fair trial, based on the evidence?"

Then, before accepting or rejecting the candidate, the defense lawyers would huddle.

It was defense by committee decision, and it took time.

### DEPOSITIONS TAKEN

Several hours was spent Monday in taking the depositions of Virginia A. Thompson and Mrs. Alice Renick, in connection with the \$50,000 damage action of Virginia A. Thompson against Morton Titus, for alleged assault.

## Toledo Rubbish Dispute Continues

TOLEDO (AP) — City Manager Russell W. Rink and the Teamsters Union failed to reach an agreement Monday on whether garbage and rubbish collectors should have to work in the rain.

The Teamsters claim a 1949 agreement with the city permits the collectors to take rainy days off and make up the work on Saturdays. Rink holds that City Council never approved the agreement, and that the question of when the men should work should be left to the city.

The dispute flared recently when the workers refused to go out in the rain and Rink fired them. Rink subsequently softened his action and lifted the suspensions.

## Two Drivers Fined, Two Forfeit Bonds

Two drivers were fined for traffic offenses and two forfeited traffic bonds in Judge Max G. Dice's Municipal Court Tuesday morning.

Pleading guilty to driving without a license was Janet Marie Berwanger, 21, of near Washington C. H. She was fined \$10 and costs.

John R. Miller, 23, of Chillicothe, was fined \$10 and costs after he pleaded guilty to speeding.

Forfeiting bonds \$15 each for failure to appear on charges of running stop signs were:

Albert Freeman Broadwater, 33, of Niles;

David Silcott, 25, of Beaver.

Thomas Jefferson was first a Republican, then Democrat.

## Five Get Treatment In Emergency Room

Three Washington C. H. men were treated in the emergency room at Memorial Hospital for injuries while working and two children for injuries while playing Monday.

Robert Crouse, of 327 N. Hinde St., was treated for a laceration of the scalp he sustained when he cut his head on a steel beam.

Treated for a sprain was George DeWeese, 312 Western Ave., who fell from a scaffold.

George Bernard of 1112 E. Temple St., was treated after he cut his right wrist on a piece of metal.

Examined or a possible fracture of the left leg was John Green, 4, so of Mr. and Mrs. Robert Green of 221 N. North St.

Dwayne Rittenhouse, 3, son of Mr. and Mrs. Wayne Rittenhouse, 502 Warren Ave., was treated for a scalp laceration he sustained when he hit his head on a coffee table.
